THE GREAT ET Medical Discovery, OF THE AGE.

Dr. KENNEDY, of Roxbury, has discovered QUEEN in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR

from the worst scorfula down to a common pumple,
He has tried it in over eleven hundred cases, and never failed except in two cases,
(both thunder humor.) He has now in his
possession over two hundred certificatef of its
value, all within twenty miles of Boston.

Reader, I have peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in everycase. So sure as water will extinguish fire, so sure will this cure humor. I have never sold a bottle of it but that sold another; after a trialit always speaks for itself. There are two things about this herb that appear to me suseprising; first that it grows in our pastures, in some places vuite plentiful, and yet its value has never been known until I discovered it in 1844 second, that it should cure all kinds of humor In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold abiut its bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise from all quarters.

In my own practice I always kept it strictly for humors.

was ever like it. There is a universal praise roin all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful vittues have been found in it that I never sus

victues have been found in it that I never sus pocted.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will grove effectdal in all cases of that awful maiady—there are but few who have seen more of it than I have.

I know of several cases of drepsy, all of them aged people cured by it. For the various discases of the liver, Sick Headache, Dyspepsin, Asthma, Fever and Ague, Pain in the Side, Diseases os the Spine, and particularly in discase of the Kidacy's, &c. the discovery has done more good than any maid-ine ever known. No change of Diet ever necessary. Eat the Let you can get, and enough of it.

Directions for Use.—Adults one table speconful per day—Uhildren ever ten years dessert spoonful—Children from five to eight years, to a spoonful. As no directions can be applienble to all constitutions, take sufficient to operate on the bowels twice a day.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from of are aggravated by the same cause.

and, indeed, of all the organs, arise from of are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise.

Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

Compound Extract of Sarsaparilla, the most effectual remedy which the medical akill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the roscue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Empriver and Skin Diseases, St. Anthony's Fire, Ross, or Entspielas, Pinples, Pustules, Blotches, Blains and Boils, Tunons, Tetter, and Salt Rheumaysm, Syphillate and Mercurial Diseases, Dropsy, Despersia, Deblity, and, indeed, all Complaints arising from Vitiated on Impure Blood. The popular belief in "impurity of the blood" is founded in teuth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
