

The Canadian Development Company has delivered passengers in Dawson six days from Vancouver and ten and a half from Ottawa.

Over four hundred delegates were present when the twenty-ninth annual convention of the Catholic Total Abstinence Union of America was called to order at Chicago on Wednesday.

Four firemen lost their lives at Omaha, Neb., Wednesday night at a blaze in an upper room of the Mercer Chemical Company's building. The fire itself was insignificant, the fatalities resulting from contact with a live wire.

The Lord advocate of Scotland, A. G. Murray, replying in the House of Commons Monday to a question, said that if Mr. Andrew Carnegie had not naturalized as a British subject he could not act as a justice of the peace in Sutherlandshire, to which office he has just been appointed.

A special to the Tribune from Vancouver, B. C., says. The following advices were received by the Empress of Japan: A terrible flood swept over the sub-perfecture of Warchow, where 1,850 houses were destroyed and thousands of poor people rendered homeless. A band of thousands of robbers is ravaging the country. Ten junks full of soldiers to head them off were captured, arms taken from the soldiers and the junks burned. Hundreds of the soldiers were drowned. Seven hundred natives who resisted the onward march of the enemy were killed, while 2,000 saved their lives by joining the robbers.

An English aeronaut who succeeded in crossing the English channel on Saturday had an exciting experience. He had to throw everything overboard to prevent going into the water, but when he dropped his anchor, weighing seventy pounds the balloon jumped up to an altitude of 12,000 feet—over two miles. This man and his companion were more fortunate than the balloonist who fell out of his basket at Lyons, Mich., on Thursday last and was dashed to the ground, a distance of 400 feet. The fall broke his neck, back, both legs and both arms.

People who are victims of sensitive teeth that crumble and acquire cavities readily may do much toward checking this dental decay by the use of a simple remedy. A bottle of milk of magnesia should be kept on the washstand, and each night, after brushing the teeth, just before retiring, some of it should be held in the mouth for a minute, that it may reach each side of every tooth. By this process a coating of the magnesia is formed over the sensitive enamel, which is thus protected from the action of the acids that form in the mouth during sleep. The magnesia will remain on the teeth for three or four hours. Washing the mouth with a solution of bicarbonate of soda after eating sour fruits or solids is also recommended by dentists, as the soda, like the magnesia, counteracts the injurious effects of the acids upon the enamel.—Harper's Bazar.

### ACADIA COLLEGE WOLFVILLE, N. S.

The College will Re-open on WEDNESDAY, Oct. 4. Matriculation examinations will be held Monday and Tuesday, Oct. 2nd and 3rd.

THE COURSE is arranged on sound educational principles, providing at the beginning two years of prescribed work, and at the end two years of work largely elective. The electives offer a wide range of literary and scientific studies. Independence of thought and research is stimulated and encouraged.

THE ATTITUDE of the College is at the same time avowedly Christian. Character is emphasized as the highest product of a sound education. The life is wholesome and the safeguards the best.

THE FACULTY includes Ten able and efficient men, each a specialist in his department.

The number of students is increasing; the work is marked by vigor and progressiveness.

Expenses very reasonable.

For Calendar and other information, apply to

T. TROTTER,  
President.

### News Summary

Basil Smith, a Springhill miner, was drowned while bathing. He was single and twenty years of age.

At Wisner's Mill pond, Lake Verde, P. E. Island, Saturday afternoon James Boylan, seventeen years of age, son of John Boylan, Auburn, was drowned while swimming in the mill pond.

The body of Miss Sybil Jones, who was drowned while skating last winter above Long Island, on the river, was recovered Monday noon a little below Spoon Island and very near her father's home.

Four young men in Elkland, Tioga county, Pennsylvania, died suddenly Monday and Tuesday. It is thought they all drank wood alcohol at a picnic Sunday. Several others are seriously ill and two are expected to die.

The war department at Washington has issued a statement in which it is said that by October 23 there will be in the Philippines, or on their way thither, 46,000 men. They will reach the islands before the beginning of the dry season.

The contract for the excavations and concrete foundations of the Whitney steel works at Sydney has been awarded to McManus and Love. The figures are \$150,000. McManus is from Moncton and Love from Halifax.

The Transvaal volksraad has declined to agree to the suggestion of Joseph Chamberlain that the effect which the Transvaal franchise reforms will have on the Utklanders should be inquired into by a joint commission.

The Financial News, of London, calls the Chignecto Ship Railway a most lamentable project and says the investors who will treat the matter in a fair, give and take way might secure a fair amount of compensation from the present Canadian administration.

The Island of Montserrat (British West Indies) was completely devastated by a hurricane Monday. Churches, estates and villages were destroyed and nearly a hundred persons killed. In addition many were injured and rendered homeless and terrible distress exists among the sufferers.

A hurricane struck Ponce, Porto Rico at 8 o'clock Tuesday morning and lasted until 3 p. m. The rivers overflowed, flooding the town. It is estimated that 200 persons were drowned. The town and port are total wrecks. It is believed that the damage will amount to over \$500,000. No news has been received from the interior since the storm broke.

Captain Delathe, of the Etoile de Mer, the French fishing vessel whose helmsman was killed by a shot from the British gunboat Leda, was arraigned at Folkestone on Wednesday and pleaded guilty of fishing in English waters and evading arrest. The commander of the Leda says the chase lasted five hours, under searchlight, and he discharged thirty blank rifle shots before resorting to bullets. The prisoner was fined \$50 on the first charge and \$25 on the second charge. The coroner's inquest upon the body of the helmsman resulted in a verdict of "accidental death," the jury exonerating the officers of the Leda.

Ex-Senator John J. Ingalls has written for the Saturday Evening Post, of Philadelphia, two valuable papers upon the later career of President Garfield. These articles, written by a man who knew Mr. Garfield in his youth, and afterward saw at close range his public acts, constitute what is perhaps the most dispassionate and judicial estimate of the man ever made. Mr. Ingalls' brilliant prose, enlivened by anecdote and strengthened by first-hand knowledge, is well worthy of his subject. In connection with these papers, facsimiles of unpublished letters from Mr. Garfield's physicians will be printed. The first of these papers will appear in the Post of August 26. In the same issue will be found contributions by Ian MacLaren, Harriet Riddle Davis, Julian Ralph and Charles Battell Loomis.

Indications in Europe point to a considerable call for wheat, from America in that region after this season's crops are harvested. Intelligence is to the effect that French harvest will fall off perhaps 20,000,000 bushels from last year. In Russia, estimates are freely made that the crop will be 85,000,000 to 120,000,000 bushels short of 1898 and the rye crop is also said to be poor in many provinces Roumania, Italy, Bulgaria and Spain are 70,000,000 bushels short of last year, and India's crop, harvested last March, fell 17,000,000 bushels below the 1898 yield. The Hungarian, German and Austrian product will be good, but only in Hungary is much wheat exported, and the amount from that quarter will not go very far to offset the other deficiencies. The net amount of these is placed at about 200,000,000 bushels. There is considerable wheat in storage in the United States from last year's supply and it is thought there will be a demand for all of it at a good price.

# Imitations of OXYDONOR

Are Dangerous to Use.

(Trade Mark Registered)

SHOWING HOW OXYDONOR IS APPLIED

The Genuine

Made by the Discoverer and Inventor

Dr. H. Sanche

A Native of the Province of Quebec, Canada, is the

Only Safe Instrument to Use

The Supreme Court at Washington, D. C., has decided in favor of Dr. H. Sanche against imitators. We are operating under the ONLY PATENTS that have been granted on THIS PROCESS and THESE INSTRUMENTS.

REFUSE IMITATIONS advertised under a different name. The genuine is plainly stamped with the name of the Discoverer and Inventor, "DR. H. SANCHE."

The BUYER OF IMITATIONS, as well as the maker and seller of them, IS LIABLE FOR DAMAGES.

OXYDONOR GIVES VIGOROUS HEALTH and cures RHEUMATISM, SCIATICA, LA GRIPPE, PNEUMONIA, INSOMNIA, NERVOUS PROSTRATION, ASTHMA, CATARRH, DYSPEPSIA, DIABETES, BILIOUSNESS, LOCOMOTOR ATAXIA, CANCER, and all forms of disease without medicine or electricity.

ONE OXYDONOR will serve an entire family, and will last a life-time if taken care of.

The following convincing expressions from prominent and progressive persons are kindly given us for publication for the benefit of humanity:

Mr. George P. Goodale,  
Secretary of Detroit Free Press, writes:

Detroit, Mich., May 2, 1897.  
By means of the Oxydonor I was magically cured of a severe case of Spinal Neuritis from which I suffered painfully, and after years of failure by various and affectionate friends in the medical faculty. Oxydonor is the chiefest single blessing with which I have made acquaintance on this earth, and I would not voluntarily forego its benefits for a deed in ice simple of Greater New York.  
Fidelity yours,  
GEORGE P. GOODALE.

J. Crawford Bradlee, M. D.

34 Wynard Sq., Sydney, N. S. W., Australia,  
November 21, 1898.

Dear Sir:—I may say that the severe tests to which I have subjected the Oxydonor and Animator No. 1, leave no room for doubt as to their therapeutic value, and so thoroughly satisfied am I (after seventeen months' practical trial in my practice in a wide range of diseases) that I am prepared to abandon all other forms of treatment, electric and otherwise, in favor of your system.  
J. CRAWFORD BRADLEE.

Former United States Consul Writes:

Hamilton, Ont., Canada Sept. 2, 1898.  
It is to me a serious deprivation to be without the Oxydonor even one day.  
C. F. MACDONALD,  
U. S. Consul.

Rev. Isaac Naylor,

the Noted English Evangelist, writes:  
The Oxydonor had a marvellous influence over me. With incredible quickness it brought me round, substituting strength for weakness, vigor for languor, ease for pain, and health for sickness.  
I shall take an Oxydonor back to England with me, and shall feel it a duty to recommend it to my friends.  
(REV.) ISAAC NAYLOR,  
Island View, Hornsea, near Hull, England.

Men and women are making a good steady income selling our productions. Write for terms. Address

Hay Fever.  
McMaster Hall, Toronto, Ont.  
November 24, 1898.  
The night I had the Oxydonor applied to me was the first night in three weeks that I had been able to sleep. Three days later the Hay Fever entirely left me. I will recommend those suffering from Hay Fever to try Oxydonor.  
WM. H. WALKER.

Sciatica, Erysipelas.

Thessalon, Ont., March 7, 1899.  
I have much pleasure in testifying to the worth of your Oxydonor, No. 2. I had been suffering untold agonies from Sciatica, and purchased one of your valuable instruments, and I have been improving ever since. The Oxydonor also cured one of my children of Erysipelas.  
THOMAS LECLAIR.

Asthma.

Wawanassa, Manitoba, March 1, 1899.  
I have been using my Oxydonor on a neighbor who was suffering with Asthma, and in three applications she is on the road to cure, and the relief is wonderful.  
W. T. HARTWELL.

PRICE NOW \$10

for the original Oxydonor, which was sold from 1889 to 1895 at \$30 and \$25.

Price of Oxydonor No. 2, latest improved, to be

USED WITHOUT ICE,  
\$23.00 and \$25.00.

A 170-page direction book with each Oxydonor.

Descriptive books containing hundreds of certificates of self cures sent to any address upon request.

Same prices for Oxydonor in Canada as in United States.
