K. S. MacLACHLAN PRESIDENT TO FRASER CO'S LTD.

AND SUBSIDIARIES

At a meeting of the Board of Directors of Fraser Companies, Limited which was held last Thursday in Edmundston, changes were made in the scheme of Management to meet the problem caused by the loss occasioned to the Company through the recent death of its President the late Mr. Archibald Fraser.

An additional vacancy on the Board has been caused through the resignation of Mr. Geo. H. Mead who handled the sale of the Company's products in the United States through the Mead Companies until the Fraser Companies, Limited developed its own Sales organizations. This has now been accomplished and all products are sold direct.

These two vacancies on the Board were filled today by the election of Mr. Harold Crabtree of Montreal and Lt. Col. Robert F. Massie D. S. O. of Toronto.

K. S. MacLachlan who has been General Manager of the Company since April 1930 has been elected President as we announced last week. Mr. Donald Fraser of Plaster Rock, New Brunswick who is a brother of the late Mr. Archibald Fraser and has been an officer of the Company since its inception, continues as Vice President. Mr. MacLachlan has also been elected President of Fraser Paper, Limited, Restigouche Company, Limited and other subsidiaries.

Little Johnny - "Mrs. Takedown paid you a big compliment to-day." Mother - "Did she really?" Well there's no denying that woman has sense. What did she say?

Little Johnny - "She said she didn't see how you came to have such a nice boy as I am."

Mamma - "Who ever taught you to use those dreadful words?" Tommy - "Santa Claus, mamma." Mothers - "Santa Claus?" Tommy - "Yes, mamma, when he fell over a chair in my bedroom on Christmas Eve."

NEW BISHOP

His Lordship Broughall, who has been elected by the Synod of the Diocese of Niagara to succeed Bishop Owen, who was recently elevated to the Bishopric of the Diocese of Toronto. Bishop Broughall was formerly Dean of the Niagara Diocese of the Church of England in Canada.

ENROLLMENTS IN MINIATURE MODEL COACH CONTEST

RECEIVED UNTIL JAN. 15

More than 20,000 Canadian boys of the Fisher Body Craftsmen's Guild have entered this year's members' contest in the making of miniature model Napoleonic coaches in an effort to win some of the \$10,000 in awards which the Guild offers in this year's competition. Many thousands of boys will get, enter the contest. There remains still a month for the young craftsmen to send in their entries to Guild headquarters in Oshawa, Ont.

Six university scholarships, worth \$5,000 each, two to be exclusively for Canadians; trips to Toronto and the Chicago Century of Progress Exposition, and more than 140 awards in gold, are offered.

In schools throughout Canada the work of the Fisher Body Craftsmen's Guild has been explained to pupils between the ages of twelve to nineteen years. And in many instances, school groups have been organized to study the plans and specifications furnished free by the Guild, and to build from them a colorful miniature model coach.

Boys may enroll through any dealer in General Motors cars, or write direct to the Fisher Body Craftsmen's Guild, Oshawa, Ontario. No enrollments, it is learned, will be accepted after January 15th.

INSTALLATION OF OFFICERS

At the annual meeting of Bethel Lodge No. 40, A.F. & A.M. on Tuesday evening, December 27th, the following officers were installed by Past District Deputy Grand Master A. S. McKinley, assisted by the present District Grand Master, Malcolm E. Amos.

C. N. R. & C. P. R. CO-OPERATION

In order to discuss plans for the fullest possible co-operation between the Canadian Pacific Railway and the Canadian National Railways the executive committees of the respective boards of directors held a joint meeting in Montreal, Announcement of this meeting was made jointly by Mr. E. W. Beatty and Mr. S. J. Hungerford. The statement follows: "The executive officers of the Canadian Pacific Railway and the Canadian National Railways, with the approval of their respective boards of directors, have in the past cooperated to a certain extent in effecting economies in operation and in other ways where uniform action appeared desirable. Relieving that because of the necessity for the utmost economy in the operation of the railways this policy of co-operation should be carried forward to the fullest possible extent, the executive committee of the respective boards of directors met this afternoon in the board room of the C.P.R., Windsor Street. The policy of further co-operation between the two railway companies was agreed upon and it was decided to appoint a joint committee to formulate plans for the carrying of it out."

GRAIN EXPORT MEANS EMPLOYMENT

Grain flowing through the ports of Halifax, and Saint John so far this season is expected to exceed the peak of 1928. The flow of this "golden" stream means employment to a large number of railway workers, two hundred additional employees of the Canadian National Railways, and the employment of many more in the Maritime Region. Coming around Christmas time the additional employment is doubly welcome.

THE BIGGEST CANADIAN EVENTS OF 1932

By R. J. Deachman

This is my third story written on the big event of a concluding year. It is an eminently proper time, with experience as my guide, to come to the conclusion that there are no big events and if there were it would be absolutely impossible to name them. When Gutenberg brought his printing press to the knowledge of the world in a little town of Germany no one visioned the day when our great metropolitan papers would circulate in millions and everybody would be able to read them—at least to read the comic strips. They thought to the people of that day would have been paralyzing. Nor did the wise men of the East imagine the ether of 1932 filled with Christmas music in celebration of the birth of a babe in the manger. Yet turn your radio dials and that is what you will hear now almost any hour.

My story of 1930 chalked up the events. But some of these have entirely faded from the picture. At that time I listed the Imperial Conference, whether history of opinion, that will depend upon the trend of Canadian thought, during the next few years and also on the war debts referred to above is in some respects perhaps more important than any of the others. Settlement means so much, continued controversy may intensify the economic conditions of the world. A move towards, or away, from a settlement is important. The Duff Report on the Railways is an event of importance to the Canadian people, otherwise it is simply filling for a pigeon-hole.

The low prices for grain have had a profound economic effect upon the life of the people of Canada. It has meant the lowering of our standard of living. It is at the basis of our railway trouble. It is really the only problem which has faced in Canada in the year 1932 — grant as may be the attention it receives from the ordinary reader.

The birth of the C. C. F. is of course important. It is plainly an outcome of our economic difficulties. All that can be said for it is that if the morning light breaks it will disappear while if the darkness deepens the number of Mr. Woodsworth's followers may increase as the years go by.

There is some evidence of a different trend of thought in the United States in recent years. Canadian thought drifts along behind the United States — several years behind. They are the greater mass and their influence upon the smaller is very distinctly felt. If we are slating the greatest restricting cause of Canadian development I would say it is the servility of our mind which causes us to follow the United States. During the last twenty-five years the United States has been exceedingly reactionary in its trend of thought. Its policies have not been the policies suited to the Dominion of Canada. We have followed them because we were moved by the presence of the larger mass, impressed by the influence of American thought upon our minds. There is a shaking up among the dry bones on the other side at the moment and that may happen to bring benefit to us in that way it may be classed as a great event influencing Canada.

The appointment by the government of a Radio Commission is important from some points of view. Whether or not it is a success will of course be a disputed point for some years. But we have set our minds as at least an event which ever way it may lead us.

I place the agreement between the United States and Canada in regard to the deepening of the St. Lawrence Canal as one of the events of 1932, not because it is like-

Roll, Rolling Along

A well-known humorist is fond of telling this story of his son's daughter. At the dinner table one day there was a party of guests for whom he was doing his best in the way of entertainment. A lady turned to the little girl.

"Your father is a very funny man" she said. "Yes, responded the child, he is when we have company."

The clergyman had returned to the town of Cowes, in the Isle of Wight, after a few years abroad. The people among whom he had been a favorite flocked to hear him preach again.

When he went into the pulpit and commenced to speak they were all mystified by the following sentence: "I am quite glad to see so many Cowes faces before me again."

One mother who still considers marcel waves as the most fashionable way of dressing the hair was at work on the job.

Her little eight year old girl was sitting on her father's lap watching her mother.

"Every once in a while the baby fingers would slide over the smooth and glossy pate."

"No waves for you, daddy," remarked the little one. "You're all beach."

Mrs. Tompkins avowed her husband she never told him a lie, nor ever would Mr. Tompkins told her he did not doubt it, he would hereafter cut another in the plan when he knew she had deceived him.

"No, you won't," she screamed. "I'm not going to have my piano ruined."
