PROGRESS, SATURDAY, AUGUST 3, 1901

'Imagine my surprise at what I found There was a long line of men working their way up to a table at the end of the hall. On the table was a book, and as each one wrote in t, a man in livery handed him a foaming glass of beer. 'What is this place?' I whispered to a man next to me.

'Why Liberty Hall,' he said looking me

'Liberty Hall?' thought I 'Ab surely this country is rightly known as the land of the tree. Such liberty! Such freedom! I, too, will have a glass of beer.'

'So I fell in line behind the others and waited patiently for my turn at the ents. When at last it came I wrote retresh my name and address in the book at the request of the man in livery, and drank my glass of beer. I then went home thinking no more of the matter except that as the beer was good I might drop in again some day and partake of the freedom of Liberty Hall.

. Next morning I was surprised in the middle of my work by my boss coming to the doorway and calling out, 'Is there a man in this factory named David Marx ?" 'Yes sir,' said I, wondering what was

medicine that ever gave me any real bene-fit," said Mrs R. K. Harris, a well known resident of Windsor, to a representative of the Review recently. "I do not know ex actly what my trouble was; doctors seem-ed unable to tell me, though I thought my-self it was consumption. I had a constant racking cough, and a constant feeling of languidness. My blood seemed to have turned to water, and I was very pale. I had a feeling in my cheat as though some foreign substance was lodged there. The alightest noise made me nerveus; I was de-jected all the time and could not scarcely do any household work. I tried medicines but they did not help me in the least. Doctors did not seem able to belp me or tell me what ailed me, although their bills increased with alarming rapidity. I grew so weak, and so despondent that finally I decided to take a trip to Colorado to see if a change of climate would beneft me. While contemplating this trip I read in a paper one day the testinonial of a person whose symptoms were almost identical with my own, who was cured by Dr. Williams' Pink Pills. I decided to give them a trial and purchased a box. When that box was done I got another, and found gradually that the pills were helping me. The trip to Colorado was abandoned, and I con-tinued using the pills until I had taken eight or nine boxes when I telt like an al together different person, I became the picture of health, and telt it too. It is seveight or nine boxes when I felt like an al-together different person, I became the picture of health, and felt it too. It is sev-eral years since I used the pills, and I have not cad any return of the trouble. I am positive Dr. Williarrs' Pink Pills saved me from an early grave, and I cannot re-commend them too highly to those who are afflicted as I was." It is the mussion of Dr. Williarr's Pink

Cigars Are Rights and Leits

'It is not always because a cigar is badly made that the wrapper curls up and works off,' said a tobacco dealer yesterday. 'It is often because a right-handed man is smoking a left-handed cigar. Sounds strange, hey? Well, a 'left-handed oigar' is one rolled by the maker's left-hand, for all cigar makers must be ambidexterous. A piece of tobacco for the wrapper is cut on the bias and is rolled from left to right on the filler. The other piece, for reasons of conomy, is then used and must be rolled the opposite way by the operator's other han i. Hence, a smoker who holds his cigar in his right hand sometimes, in twisting it about rubs the wrapper the wrong

way and unloosens it."

It is a rare thing for a turnpike-gate keeper to be buried in the tomb of an earl's family, but this happened in 1855. At the opening of the nineteenth century the last recognized Earl of Kent died, and the title became vacant until the year of the Crimean War, when some one discovered that a turnpike-gate keeper of Dubley, named George Wilmot, was fully entitled to claim the earldom. The man was approached,

but he was skeptical, and replied that, deing well advanced in years, he did not wish to abandon a certain means of living for an uncertainty. However, the matter was referred to the law and the man's right established, but ignorantly he considered he knew better than the law, so lived a poor man until he died the following year, when he was buried as Earl of Kent. Since then the title has gone begging' and, though the family name is Grey. no claimant has arisen.

How Marx Became a Soldier

David Marx, a dealer in d amonds in New York, is a veteran of the Civil war, and as he himself admits, one glass of been is responsible for that fact.

'My enlistment came about in a very peculiar way,' Mr. Marx explained to me friends the other day. 'Jn '61 when I first came to this country I obtained em ployment with a cigar manufacturer in Philadelphia. After work the first day, while strolling about the streets, I noticed a crowd surging around the outside of a large building. My curiosity was naturally aroused, and, having nothing else to do, I pushed my way through it into the building

nation of the revision committee, which has merely stated a fact. But it errs in the declaration that the fact has a unive sal recognition. The distinction is of some importance, since the great majority of christians must be excluded from the universal category. Most of them may have a vague feeling with regard to the whole subject of critical study that it is proving a disagreement in many things, but they understand next to nothing of the particulars and should not be con-

fused with the scholars. No doubt, however, the effect of the new teaching will descend through all the ranks in time, though it is not likely and last year's straw bonnet this morning that is not intended to destroy any of the es-sentials of faith in the Bible and its authority.
