Walter Baker & Co. Ltd.  
Established 1780  
Montreal, Canada      Dorchester, Mass.

This design is good for gingham, madras, chambray, crepe, voile, silk, linen and all lingerie fabrics, also for velvet, flannel and corduroy. The collar may be rolled open at the throat or closed high. The sleeve may be finished with a simple band or with the pointed cuff added. The pattern is cut in seven sizes: 32, 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 2 1/4 yards of 40-inch material for a 36 inch size.

9834. A new and stylish model. Ladies' shirt waist.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

9838. A simple, practical and becoming model. Ladies' house dress in raised or normal waistline.

Percalé, lawn, seersucker, galatea, cashmere, linens or flannellette are all appropriate for this style. The fronts are slightly low at the throat and finished with a neat rolling collar. The sleeve has a shaped cuff. The closing is at the side front in skirt and waist, and the simple gored skirt has a tucked stitched inverted plait at the center back. The pattern is cut in seven sizes: 32, 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 6 1/4 yards of 36-inch material for a 36 inch size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

9835. A charming and effective little Girl's dress.

In spite of its simplicity, this model is attractive, and will develop effectively in any of the dress materials now in vogue. The fronts are shaped and crossed, the closing being affected at the left side near the armseam. Deep Gibson tucks add to the apparent width. The skirt is plaited below a wide belt. A flat collar finishes the neck edge. The pattern is cut in four sizes: 4, 6, 8 and 10 years. It requires 3 1/2 yards of 40-inch material for a six year size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

The skirt is gracefully draped at the side, where it joins a shaped back panel. The fronts are slashed near the hem, and finished with a small insert. Dart tucks confine the fullness over the hip. The model is effective for serge, broad cloth, panama, voile, velvet, corduroy, satin or silk. As here shown gray prunella was used, with trimming of self-covered velvet buttons, and insert of velvet. The pattern is cut in five sizes: 22, 24, 26, 28 and 30 inches waist measure. It requires 2 3/4 yards of 44-inch material for a 24 inch size.

9809. A unique and stylish design. Ladies' skirt with shaped panel, back and front insert.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

## THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but, I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but pay me first, and I'll give you back your money, if the horse isn't all right.

Well, I didn't like that. I was afraid the horse was not "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in Six Minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fray the edges, nor break buttons, the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might. So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight, too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 50 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally.
