still follow antiquated methods of raising cake, biscuit, bread and pastry with home-made mixtures of what they suppose to be cream of tartar and soda.

They do not know that these articles as now sold in the groceries are almost anything else but cream of tartar and soda.

The best housekeepers use the Royal Bak-ing Powder instead. Its scientific composition insures uniform results. Only by its use can the finest flavored, most wholesome cake, biscuit and pastry be produced. To any housekeeper who has not used the Royal Baking Powder we would like to send our Cook Book, free. #### THE CATTLE EMBARGO.

Agricultural Committee Passes Rese lution Against It and Would Send Mr. Fisher to England.

Ottawa, June 21.—At a meeting of

Ottawa, June 21.—At a meeting of the agricultural committee yesterday the following resolution, recommended by the sub-committee which had the matter under consideration, was unanimously adopted:

That, in the opinion of this committee, the embargo on Canadian cattle entering the United Kingdom is most unfair and unjust, as it, is a publication to the world at large that the board of agriculture considers it unsafe to permit the Canadian cattle to come into contact with the herds in the United Kingdom, whereas it is a well-known fact that in no country other than Canada can herds be found so free from disease.

That the scheduling of Canada by the Imperial Government is considered from a financial point of view as a serious loss to the Canadian cattle trade, the farmers and the slock raisers of the Dominion.

That action of the Imperial Government is not, justified by the facts of the case, it having hem clearly proved that the disease of pleuro-pneumonia has never existed in Canadian herds.

That in view of such conditions the removal of Canada from the schedule would be but an act of justice, and should be strenuously pressed.

That as the Dominion is a stock-raising country, and capable of producing a large and constant supply of beef cattle, it is considered important to the Empire that no obstructions nor difficulties should be placed in the way of Canadian cattle breeders which would tend to decrease the food supply within the Empire.

Have an English Conference.

On motion of Mr. Armstrong of. Lambton, the Government was also asked to send the Minister of Agriculture to England and to invite also the Provincial Ministers of Agriculture to Join in a meeting with the President of the board of agriculture to endeavor to present the Canadian view.

## THORNTON & DOUGLAS

LIMITED.

Some of the members doubted if this resolution would do any good, and suggested that more vigorous measures should be taken. Mr. Caldwell, Lanark, took the same ground as he had expressed at previous meetings—that the Dominien should repeal the British customs preference unless the motherland met us squarely in the matter.

the motheriand met us squarely in the matter.

Hen. Sydney Fisher said the last communication on the subject from the Canadian Government was to protest against the statement by the President of the board of agriculture, that the Canadian people were satisfied with the existing conditions. The President had accepted the denial, but since then he had most emphatically stated, without equivocation or reserve, that he would not advocate the abelition of the embargo, although he admitted that there was ne disease in Canadian herds. His objection might be summed up in the possible risk of contagion, but everyone knew that that was merely an excuse.

Show Our Earnestness.

that that was merely an excuse.

Show Our Earnestriess.

The question had been agitated, discussed and ventilated in the old country, and that progress was being made in that way. The ignorance which had prevailed upon the subject among the masses was being gradually remeved. A hopeful feature was that the people were commencing to take sides on the question. His own view was that the proposeed resolution, when adopted by the House of Cemmons, would be an official ansouncement that would be useful in convincing the British people that the Canadians were in earnest.

#### SIR JAMES WATSON'S OPINION.

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhozone" No case of Catarrh can exist where Catarrhozone is used; it is a miracle worker, relieves almost instantly and cures after other residedies fail. Other treatments can't reach the diseased parts like Catarrhozone because it goes to the resone of the trouble along with the air you breathe. Catarrhozone is free from cocaine, it jeaves no bad after-effects, it is simply nature's own ours. Accept no substitute for Catarrhozone which alone can cure Catarrhozone which alone can cure Catarrhozone.
