The various members of the family are recovering, but they had a close call. It appears that Mr. Bray's nephew had filled the stove with coal last night before retiring, but falled to properly arrange the drafts.

The announcement was made in a speech by President Geod. E. Drummond at the close of the "Pacific Excursion" banquet at the King Edward last evening. The gathering was osternibly purely a social event, and the first three or four hours were spent in recalling the pleasures of the excursion through the west of a few weeks ago. At the last moment President Drummond delivered his views, and their importance and seriousness quite overshadowed the other events of the evening. Singularly enough, the announcement of solice had the effect of being taken as larly enough, the announcement of policy had the effect of being taken as the manimous view of the association, the period for discussion at the meeting having already passed.

Mr. Asquith, speaking at Seven Oaks last night, said the Unionists were united and could sing in chorus the blessed word "realization," some with full-throated conviction, others, like Sir Michael Hicks-Beach, with a half-hearted, tremulous quaver. Retaliation was put forward as a sticking plaster to reunite the fragments of the shattered party. Canada at present sent to this country more bounty-fed iron than either the United States or Germany. Was Premier Balfour's system of retaliation for the good of the empire to be applied by singling out Canada for hostile treatment?

The News says Sir Michael Hicks-Beach has his reward in a cartoon in The St. James' Gazette, depicting him ignominously returning from the cold water of Cobdenism to the Retaliation bathing machine.

Mr. John Morley, speaking at Dumfries yesterday, declared that the protectionists proposed to bring down a great clumsily-fashioned axe on the delicate machinery upon which the food and well-being of the country rested. With an Angry Moh.

Chicago, Nov. 20.—Despite the united efforts of Mayor Harison and the Aldermanie Mediation Committee to bring about a peaceable adjustment of the Chicago City Railroad strike, there is little change in the situation. Soon after a wrecking waggon and car containgin policemen had left 38th stret last night two cars came up from the opposite direction. As they were crossing 26th street the mob left fly a shower of stones, demolishing the car windows and causing four passengers on the first car to fee for their lives. The mob then swarmed upon the cars, and had begun to beat the train crews when the two cars with the policemen and the crew of the wrecking waggon came hurrying back. The mob, which had greatly increased by this time, was in an ugly temper and refused to move. The police drew their revolvers and clubs and charged at once. The mob used stones, while the police swung these dubs with vigor. There was a warm fight, which lasted about two minutes, and then the mob broke and field in all directions. A number of those engaged in the rioting were arrested.
