NELSON'S VICTORY. the Flagship of the Here of Tra-falgar Was Rammed-The King

All England experienced a shock the other day when Nelson's famous flagship Victory was run down by the old ironclad Neptune in Portsmouth harbor and nearly sent to Davy Jones' locker.

The accident occurred on Oct. 23, two days after the anniversary of the battle of Trafalgar, which was fought Oct. 21, 1805, and curiously enough the Neptune is a descendant of a wooden vessel of the same name which fought side by side with the Victory in that battle.

The Victory was launched in 1751 and was a ship of 100 guns. She has

and was a ship of 100 guns. She has been rebuilt so many times that now scarcely a piece of wood of her original construction remains in her.

The following general signal was made to the ships at Portsmouth on the Saturday following: "The Commander-ih-Chief has this morning re-

ceived the gracious command of His
Majesty the King to present the Victorian Order to Captain Rapson and
Mr. Garde, Chief Constructor, to
evince His Majesty's deep interest in
all that concerns the Victory, so associated with the past glories of His
Majesty's navy, and as a mark of
His Majesty's appreciation of the
prompt and successful action of those prompt and successful action of those chiefly concerned in so happily secur-ing the safety of the Victory when in peril of sinking." In accordance with this signal the decorations of the Or-

this signal the decorations of the Order were presented at Admiralty House, Portsmouth, on Sunday, by Admiral Sir John Fisher.

The unusual sight of Nelson's famous flagship in dry dock for repairs attracted hundreds of persons to the dockyard at Portsmouth. The damage done to the Victory by the collision with the Neptune was very extensive. The gangway of the Victory was torn completely away, and lision with the Neptune was very extensive. The gangway of the Victory was torn completely away, and there was a hole on the port side six feet long by three feet wide, the top of the rent, which, of course, a man can pass through quite easily, being on a level with the water-line. This hole was exactly the shape of the Neptune's ram, which did the mischief.

A POET OF IRELAND. Villiam Butler Teates and His Resent Volumes of Postry.

William Butler Yeats, the Irish poet, has aroused considerable atten-tion in this country by his two latest works, a volume of essays,

THE GRAND PROMOTER

Major Crofoot Has No Ready Cash, but Millions In the Future.

[Copyright, 1908, by C. B. Lewis.] HE German tailor had made a timid call on Major Crofoot, grand promoter and general schemer, with a little bill for repairs to a suit, and as the major received and glanced at the hill he said:

"My dear Mr. Schwartzenhammer, this bill is made out in a business way and footed up correctly. It specifies that I owe you 90 cents for services rendered. I'do not dispute it. On the contrary, I admit the indebtedness and will now proceed to discharge it and show my gratitude at the same time. I propose to take you into one of the most gigantic schemes of the age with me and divide the profits."

"I like my 90 cent," replied the tailor as he looked puzzled and perplexed.
"You shall have them, my dear man, and millions more on top of them. Listen to me. I am about to contract for the entire huckleberry crop of next year at 7 cents a quart and raise the price to 20. The estimated crop is 98,-672,235 quarts; net profits, \$890,000. A clean, tidy business, with no tar or grease to soil your hands and quick returns on capital invested. No politica or religion in it, and the public must have huckleberries no matter what the price. Capital stock limited to \$50,000 and all shares nonassessable. Apply at once. All shareholders entitled to huckleberries at contract prices. You shall come in with me, and we will make an even whack of expenses and profits. I shall want \$100 from you to help inco porate the concern. Can you pay it to-

"You-you mean I vhas to gif you one hoonered dollar? stammered the creditor as his hair fairly stood up.

"Yes; that will do at present, provided you want to make about \$250,000 during the next year. Perhaps, how-ever, you don't want to waste your time on such small potatoes. If not let me call your attention to another sure thing strictly original with me. It is to buy 20,000 acres of New Jersey marsh lands and cultivate celery. The title of the organization is to be the Great Un-limited New Jersey Celery Growers' association. Our capital will be limited. but our celery will not.

"You can see for yourself what there is in it. Twenty thousand acres at \$2 per acre is \$40,000. Each acre will raise \$60 worth of celery, making the season's crop turn in \$1,250,000. Say it takes the \$200,000 to pay for seed and labor and sundries, and yet there is a cool million to divide between us. Don't

"Certificates of shares will be out next week, and you never saw finer printing in colors, If you can bring me in \$150 this afternoon as your half of the expenses of incorporation and buying postage stamps I will be ready to select the land and close a deal next week. What do you say?"

"I-I don't understand her," replied the tailor. "You owe me 90 cent, but you don't pay."
"That is a concise statement of the

case, my dear Mr. Schwartzenhammer
—that is, I do not pay ready cash, but
in place of it I offer you a fortune in
the immediate future. Perhaps you
do not care to go into huckleberries

or celery? We all have our little idioms, you know. Very well.

"I now call your attention to the Great American Matrimonial and Trust company. A person, either male or female, desiring to enter into the bonds of wedlock calls at the office and leaves. leaves name and particulars and pays a fee of from \$25 to \$250 to be guaranteed. No sparking, no jealousy, no loss of time. Marriages brought about within an hour if so desired. Parties within an hour if so desired. Parties afterward supplied with money for the bridal tour and set up in house-keeping on the installment plan. Dispositions most positively guaranteed. No fear of marrying a drunkard on the one hand or a bleached blond on the other. Mothers-in-law kept at a safe distance or not the feature of the control distance or put out of the way entirely. Every marriage warranted for ten years if rules and regulations are lived up to. Are you catching on, my friend?"

Keep your eye this scheme until you can unload mining and railroad stocks and come in out of the wet. Certificates of shares will be put at \$5 each, so that all can invest. Divorces procured for grass widows at reasonable figures and without unnecessary delay. How do you like it, my friend?'

"Don't-don't I get my 90 cent?" asked the tailor in a helpless way as he pointed to the bill lying on the

You do, my dear creditor. You get it a hundred thousand times over.
That's what I'm working for. You have had confidence in my financial integrity, and I wish to prove my gratitude. If you don't fancy what I have mentioned, why not join me in my lit-tle Florida scheme and be able to buy a national bank within two years?
"Ten thousand acres of swamp lands

can be bought in Florida for \$1 an acre. Each acre will furnish pasture ground for 12,000 frogs. At one year old each frog will sell right there on the ground for a dime. That is, his hind legs will, while the rest of his body can be fed to 10,000 ducks and geese being raised for market at the same time. No machinery to get out of order about this scheme. Requires no ice in summer and no cold storage in winter. Capital stock only \$25,000 and monthly dividends of 50 per cent guaranteed. Bound to go with a jump -bound to. Cannot be consolidated with any gas company nor sold to an English syndicate. Title not yet selected, but will probably be the Great Southern Frog and Fowl Raising company. This tiny, boyish-faced, and somewhat lowsized youngster has shown fine ora-torical gifts; indeed, there is a cur-fous contrast between the power of the fine resonant voice and the copious and elequent vocabulary, and the smallness of the physique, which is striking; it has often occurred be-fore, as people know, in the case of orators. Lord Percy is, besides, a very high-minded and very honest young politician. Perhaps he has a little too much of the same sacerdotalist spirit as Lord Hugh Cecil, and as Gladstone had when he was a oy; and Lord Percy belongs to a small and not very work-a-day creed, e Irvingites, who came into existnce under the inspiration of Edvard Irving and Henry Drum I regret that Lord Percy at this moment should be at the Foreign Office; he has traveled a great deal, especially in the Turkish dominions; but I fear he is rather Turcophile,
