FARM AND DAIRY

RURAL HOME

PETERBORO, ONT.

NOVEMBER 5, 1907

STORAGE HOUSE OF THE NORFOLK FRUIT STORAGE CO., LTD., SIMCOE, ONT.

At this season when many apples are being placed in storage, it would be well if more buildings like the one illustrated, were to be found in Canada. Through co-operation it is possible to have them in all fruit districts. The Norfolk building is 42 by 62 feet, and made of cement, with galvanized iron roof and gable ends. The basement is 10 feet clear and the first floor, 12 feet. Note the railway spur line for loading cars direct. The Norfolk Fruit Growers' Association distinguished itself by attractive exhibits at the Ontario Horticultural Exhibition recently. Read the article on Cold Storage by Mr. Ruddle on page 3 of this issue.
