THE business that started so courageously in this humble structure in 1847, to-day dominates the stove and furnace business of the British Empire.

From the small number of quaint wood stoves made in those early days the output has grown steadily until now—it comprises

Thousands of Furnaces

in many styles and sizes and burning wood, coal or gas.

Cooking and Kitchen Utensils

in infinite variety and in such vast quantities as would alone constitute a great industry and

100,000 Stoves

using every practical form of fuel—electricity, gas, oil, coal and wood.

This success—this healthy growth over such a long period of years—could come only from fair dealing with the people. On any question regarding heating or cooking appliances, what better source of advice could you seek than McClary's?

Any of this list of Booklets on heating or cooking will be sent, if you mention this paper.

"Service from the Kitchen"—About the Kootenay Steel Range.

"Magic of the Pandora"—About the Pandora Cast-Iron Range.

"Comfort in the Home"—On heating with the Sunshine Furnace.
