

THE BEST IS ALWAYS THE CHEAPEST

The Halladay Standard Wind-mill as improved for 1893.

Is better than ever and has no equal.

It has stood the test for over forty years, which is a record no other mill can claim. We still guarantee it to be more reliable in storms than any other wind-mill made. We make several other styles both for pumping water and driving machinery. It will pay you to write us for large descriptive catalogue before purchasing elsewhere.

The DALE PIVOTED LAND ROLLER (Patented)

A steel roller, the drums of which oscillate on pivots, and adapt themselves to the unevenness of the ground. Its points of advantage are too many to enumerate. Some of them are: The bearings are the only wearing parts and are guaranteed to last from Ten to Fifteen Years, and can be replaced at a nominal cost. It rolls all the ground, no matter how rough. There is no axle shaft, no strain, and consequently no wear. It is easily oiled between the drums. The demand is steadily increasing. It is unanimously recommended by those farmers who have used it. Orders are now being looked for the spring trade. Description and price furnished on application to T. T. COLEMAN, SOLE MANUFACTURER, SEAFORTH, ONTARIO.

WASHER!

Yesterday a Globe reporter accepted an invitation from Mr. McCrossan to see the machine working and went up to the home of Mrs. Wilson, 559 Parliament street, and saw a washing well and quickly done. About a tub full of soiled clothes were put in the machine and three pailsful of hot water, in which soap had been dissolved, were poured in. The machine was then worked for ten minutes, and by the way, the work is merely child's play. Afterwards the clothes were wrung out through an ordinary wringer, after which they were again put into the machine and three pails of boiling water poured over them. The machine was again put in motion and kept going for six minutes, when the clothes were taken out and rinsed. It was the unanimous verdict of all the ladies present—as well as the reporter—that the clothes were thoroughly clean and of an excellent color. One thing was very noticeable, that is the fact that the process of washing with the machine is very much easier on the clothes than the old hand-rubbing way. The following ladies were present during the experiment and were loud in the praises of this latest labor-saving machine:—

MRS. ALBERT WILSON, 559 Parliament St. MRS. FLAWS, 561 Parliament St. MISS ADDIE WILSON, Barrie, Ont.

MCCROSSAN & CO., 42-y-om 506 Main Street, WINNIPEG.

THREE POSTS TO THE HUNDRED FEET.

HEIGHT—Five feet the standard. SPACED—Close at the bottom where prowls the obtrusive pig. Wide at top where sweeps the unobstructed view. STRENGTH—To stop the mad career of running steeds, though wild with fear. Every foot of every panel a perfect self-regulator. This is the ready-made fence built by the
