Doesn't It Stand to Reason

that we who make a specialty of telegraphy
should give you a course of instruction vastly
superior to that given by schools that make
telegraphy simply one of many branches?
Our booklet tells why. A postal brings it.

**The National
Stands First.**

This is no vain boast. Others may claim
this place, but the National Cream Separator
soon proves its superiority when brought
into competition with them.

The National is as represented. The close-
ness of its skimming has not to be sacrificed to
keep up its advertised capacity.

It makes smooth cream, which is easy to
churn.

Its turns easily, is quickly cleaned, having
so few parts, and these easily adjusted.

Its milk tank is conveniently low, and its
gearing enclosed.

No Bars Up.

When a young man or woman wants
to strike out into business there are no
obstacles in the way—no examinations to
be passed—no one to say Yes or No.

All that is needed is a common school
education, a clean character and a desire
to succeed.

Give us that and we can fit a young per-
son for splendid opportunities in the busi-
ness field.

We are doing it every day, and still the
demand is greater than the supply. Even
while we write our employment docket
shows more than 10 calls for help that we
are unable to fill.

A business course is certainly the easiest
success proposition open to-day. Learn
more about it by writing to the Central
Business College of Toronto. W. H. Shaw,
Principal.

**The Best Record
of Them All!**

THERE are eleven of the famous Federated
Business Colleges. The year just closed
shows that of all these, the Berlin Business
College made the best record as regards in-
crease in attendance and in positions for its
graduates. The B. B. C. is not living on its
reputation, but is strictly progressive—a first-
class 20th century school. New quarters and
new equipment unsurpassed. Our fine new
catalogue is sent free to any address.

Fall Term Opens Sept. 6.
