

GOSSIP.

"We want a man for our information bureau," said the manager, "but he must be one who can answer all sorts of questions, and not lose his head." "That's me," replied the applicant. "I'm the father of eight children."

Mr. Geo. M. Smith, Haysville, Ont., breeder of Large English Yorkshire pigs, writes: "Our hogs are doing exceedingly well. We just sold a fine young boar to Mr. G. Betchen, New Dundee, from Woodstock Lassie. And she has just farrowed a fine litter of ten, sired by Dalmeny Topsman 2nd. We are booking orders for them just now. They are a very fine litter, not a small one in the lot. Dalmeny Topsman tips the beam at seven hundred pounds, and is not fat."

Mr. Hugh Thompson, St. Mary's, Ont., in sending change of advertisement, writes: "Thanks to the Farmer's Advocate, I have sold all my Shorthorn bulls, except my imported one, as follows: To Michael Kelly, Downie, the yearling bull, Royal Butterfly; to David Louch, Belton, the yearling bull, Queenston Diamond, and to John Jickling, St. Mary's, Ont., the yearling bull, Wimple King 2nd. Those are all good animals, and the purchasers cannot fail to be satisfied. A slight mistake was made by your field marshal in his notes of my sales. The cow I sold to Kyle Bros., Ayr, was an English Lady cow, bred by the late W. B. Watt, Salem, Ont., and had a red bull calf at her foot by Scottish Beau (imp.), and a good one he is."

The Woodroffe Herd of Ayrshires, founded in 1887, owned by Mr. J. G. Clark, Ottawa, inspected a few days ago by one of our staff, was found in fine condition, and paying well for the food consumed. Mr. Clark keeps a strict record of the amount of milk produced by each cow, weighing it individually at time of each milking. He has also been successful in producing and selecting cows with large teats, a very important point that was badly neglected a few years ago. In this herd are several heavy milk producers that have also bred some choice young stock, some of which are for sale. Among the heaviest milkers in the herd for 1904 is Queen's Own, her record being 10189 lbs., testing 3.6; her record in 1903 being 11,262 lbs., testing 3.5. Next in order came Lennox Lass, with a record of 10,025 lbs. of 3.8 milk. Maud S. of Hillhouse 13670 (imp.), that won the grand championship at the St. Louis World's Fair, is still in the pink of condition, notwithstanding the knocking about she got on the exhibition tour. She produced 8,723 lbs. of 4.2 milk (422 lbs. butter within the year), and has at foot a very promising heifer calf that would make a grand start for a herd. Ayrshire Belle 7058 is another that has a very fine heifer calf at foot. She produced 8,190 lbs. of 3.6 per cent. milk in 1904. The 20 head gave, in 1903, a total of 176,025 lbs. of milk, an average of 8,801 lbs. each, averaging a trifle better than 4 per cent. fat. In 1904, the same number gave a total of 175,138 lbs., an average of 8,756 lbs. each, testing 4 per cent. fat, a very satisfactory record, and a test that every dairy herd should either stand or fall by. Woodroffe Polly 13040, winner of the dairy test at Guelph, 1903, is still giving good returns, her record for the past year being 9,621 lbs. of 3.8 milk, besides a valuable calf. In the last three years nine cows from this herd won in dairy tests five firsts, three seconds, one third, and two fourth prizes, and last, but not least, is the great record that this herd made at the St. Louis World's Fair, a record that any breeder should feel proud of, particulars of which were given in the "Farmer's Advocate" of September 29th, 1904, a record that the community of Ottawa district recognized by presenting Mr. Clark with a beautiful silver trophy and an embossed address, showing their appreciation of the honors he had brought to the district and the Dominion.

Mr. Clark has several young things, both male and female, sired by his St. Louis first-prize winning bull, for disposal, among them some really good ones that should be picked up early. Yorkshire swine are also bred at Woodroffe, and like the Ayrshires are kept for profit and not for fancy, none but the best being sold for breeders. When in need of such stock, make your wants known to Mr. Clark.

We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma	Hay Fever—Influenza
Abscess—Anæmia	Kidney Disease
Bronchitis	La Grippe
Blood Poison	Leucorrhœa
Bright's Disease	Liver Troubles
Bowel Troubles	Malaria—Neuralgia
Coughs—Colds	Many Heart Troubles
Consumption	Piles—Pneumonia
Colic—Croup	Pleurisy—Quinsy
Constipation	Rheumatism
Catarrah—Cancer	Scrofula—Syphilis
Dysentery—Diarrhœa	Skin Diseases
Dandruff—Dropsy	Stomach Troubles

Dyspepsia
Eczema—Erysipelas
Fever—Gall Stones
Goitre—Gout
Gonorrhœa—Gleet

Throat Troubles
Tuberculosis
Tumors—Ulcers
Varicocele
Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

OUT OUT THIS COUPON.

for this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....
I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.
