

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a salve nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be limited. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser

describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

QUESTIONS AND ANSWERS. Miscellaneous.

NOT A PROPHET.

What, in your opinion, will be the advance in price in good butcher cattle in the next three weeks? **R. C. D. Gray Co., Ont.**

Ans.—Our market reporter has not advised us, and we doubt if he knows. Predicting future market prices is like betting on horse races or elections, or guessing which way the cat will jump, a mighty uncertain business.

LINE FENCES.

The Maitland river runs across the back end of my farm, and I have the half of the line fence on each side towards the river to keep up. I have kept it up now for fourteen years. Am I supposed to keep it up all myself, or should my neighbors do something. When the river widens out in the spring and fall, it takes away rails and poles.

Ontario. A READER.

Ans.—It does not seem right. What you are legally required to do, is to maintain your just proportion of the line fences. You appear to have been doing more than that. But the matter is one to be disposed of by the local fence viewers if you cannot come to an agreement about it with your neighbors.

TRAPPING ON MARSH LANDS. CONCERNING WILLS—REGISTRATION OF DEEDS.

1. A's deed covers a large area of flood lands upon which he pays municipal taxes. The lands are fenced in. For years, any person who desired has trapped upon these lands. Can A prosecute any persons trapping on these lands after giving notice of warning? If so, what course must be taken?

2. A man wills his property to certain members of his family. Afterwards, he has deeds prepared and property executed, deeding lands to members of the family, the same as provided in will, but the deeds are not registered at time of death. Which will hold good, the will or deeds?

3. B makes no will, but deeds his property to son and wife, leaving the other children unprovided for. The deeds are not registered at time of death. Will the deeds hold good, or, on account of the non-registration at death, would all members of the family share and share alike? **Ontario. X.**

Ans.—1. Yes; information should be laid before a justice of the peace, under The Ontario Game and Fisheries Act (7 Edw. VII., Chap. 62). See especially Secs. 25, 60, 61 and 62.

2. The deeds.

3. The fact of the deeds not having been registered would not prevent their taking effect.

GOSSIP.

PROCRASTINATION.

The wisdom of prompt action was lately demonstrated in a rather pathetic way. Two sisters had listened to an address directing attention to the Canadian Government Annuities system as an opportunity for safe investment to people of small means, and with the result that both resolved to take advantage of it immediately. Each had the sum of \$2,000 invested in the stock of a certain bank. The younger sister, aged 65, did not delay, but at once sold her stock and made the purchase, and is now in receipt of an income of over \$50 quarterly, the first instalment of which was paid to her three months after the purchase had been made. This gives her for life an income equal to 10 per cent. on the amount invested. The elder sister intended to follow her example, but, unfortunately, on the advice of Mr. Knowall, put off doing so until it was too late. The bank failed, and her savings of a lifetime were swept away, as in the twinkling of an eye. But not only was her \$2,000 lost, but she became indebted to the bank under the double-liability clause in the sum of \$2,000. Had she invested the amount as did her sister in the purchase of an Annuity, she would have had an income, no matter how long she lived, of \$225 a year.

Further information may be obtained on application to your postmaster, or to the Superintendent of Government Annuities, Ottawa, to whom all letters go free of postage.
