

**Free Them From Lice**

Instant Louse Killer is sold on a positive written guarantee to destroy lice on poultry, stock of all kinds and ticks on sheep, formulated by Dr. Hess (M.D., D.V.S.)

For destroying lice on calves and colts, nothing equals Instant Louse Killer. For sheep ticks it is most effective, doing away with the muss and annoyance of a "dip."

**Instant Louse Killer**

Is the original powder louse killer put up in round cans with perforated top. Be sure of the word "Instant" on the can—there are over 25 imitations.

1 lb. 35 cents.  
3 lbs. 85 cents.

If your dealer cannot supply you send your order to us.

Sold on a Written Guarantee.

**Josiah Reed's Experience with CANCER**

CLAYPOOL, IND., June 30, 1904.  
DR. D. M. BYE CO., Indianapolis, Ind.

GENTLEMEN—I will write what the Combination Oil Cure has done for my cancer. It was December when I first corresponded with you, and how hard it was to convince me, even after the literature had been sent, that cancer could be cured. I had been taught from my youth up that cancers could not be cured by man. At the time I began treatment, the cancer, which was located beneath my left eye, protruded to such an extent that I could not wear my glasses, and the sight of my left eye was impaired. It had been growing for about six years, beginning when I was 72 years old, am now 78. My father before me had a cancer that caused his death. After using your treatment as you instructed, my cancer was entirely eradicated, and to-day there is hardly a scar left and the sight of the eye is nearly as strong as the other one, praise the Lord. I hope that your name will never die, and that your soul will forever find rest in Him. Your unworthy servant, healed and saved to the uttermost.

JOSIAH REED.  
All forms of cancer and tumor cured by soothing, balmy oils. Doctors, lawyers and ministers endorse it. Write for free book to the Home Office of the Originator, Dr. D. M. Bye Co., Drawer 505, Dept. 97 Indianapolis, Indiana.  
(Cut this out and send to some afflicted one.)

**QUESTIONS AND ANSWERS. Veterinary.**

**RINGBONE.**

Have a colt that has been lame on hind leg for several weeks. I noticed a slight enlargement on luxar joints, as if ringboned. What would you recommend for cure?

Ans.—Have the colt fired for ringbone by V. S., and follow by a blister of biniodide of mercury, 1 dram, to 8 drams of lard. V.

**TUMORS.**

Last June two lumps appeared on my horse's breast—one on each side of the throat, just under the skin. They are as large as large hen's eggs. They are not painful. C. C. K.

Ans.—These are fibrous tumors, and should be carefully dissected out. As they are in such close proximity to large blood vessels the operation must be skillfully performed, and I would advise you to employ a veterinarian. V.

**CONGENITAL MALFORMATION.**

When calf was born it could not suck, but drank milk out of a pail. It is over two months old and cannot suck yet. Saliva is continually flowing from its mouth, and every time we go to feed it there is one or two wads of straw in its mouth. M. M.

Ans.—There is some congenital malformation of the mouth or tongue, or both, and it is not probable anything can be done. It may be it is what is called tongue-tied, and it is possible this might be corrected by an operation. It requires a personal examination to diagnose the trouble, and the possibility of a successful operation. V.

**SCRATCHES ON FILLY.**

I have a filly has something like scratches on her legs; she also passes what looks like dead tapeworms. Drinks very little; seems rather costive; eats a lot of salt; hair rather dry; seems easily tired.

Ans.—A good ointment for scratches is composed of 1 dram of oxide of zinc to 6 drams of lard; rub once a day. For internal treatment give 2 ozs. of turpentine every day for a week, which will have to be administered in a drench; mix with a little water. At the end of the week give a ball. In my opinion the mare has not tapeworms, but just ordinary worms. V.

**SCRATCHES.**

What would be a safe remedy for scratches, in the case of a mare with foal? F. H.

Ans.—As the mare is in foal avoid purgatives. Give one ounce Fowler's solution of arsenic three times daily every alternate week as long as necessary. Poutice the heels with warm linseed meal with a little powdered charcoal for two days and nights; put fresh poutice on every eight hours, and then dress three times daily, with a lotion consisting of one ounce each, sulphate of zinc and acetate of lead, and two drams carbolic acid, to a pint of water. Do not wash the legs at all. If they get wet, rub them dry; if muddy, allow them to dry and then brush.

**CONSTIPATION.**

Colt was sick in October and again in January. It refused to eat, became restless, would paw, lie down, rise on its fore feet, rub hind quarters against the stall, etc. Is it indigestion, and is it liable to further attacks? W. J. T.

Ans.—This is a form of indigestion. The colt appears to be predisposed to the trouble. All horses are liable to an attack, and those who have congenital weakness of the digestive organs suffer from slight provocation. I would advise you to give him a purgative of six drams aloes and two drams ginger; follow up with a dram each of gentian, ginger and nux vomica, night and morning for two weeks. Feed regularly on moderate quantities of food of first-class quality, and do not make any sudden changes in his food. If he is attacked again, give injections of soapy warm water per rectum, and give one ounce chloral hydrate dissolved in a pint of warm water every hour until relieved. Follow this with a purgative and treatment as above. V.

**IT FILLS THE MILK PAIL**

If you add a little PRUSSIAN STOCK FOOD to the feed, the milk will be richer in butter fat. If your cow is not giving full capacity, there is nothing so good to put her into condition, as

**PRUSSIAN STOCK FOOD**

It aids digestion, assimilation and helps get all the good out of the feed. It costs but a trifle to use it. It puts horses in condition, purifies the blood, makes them sleek and fat, gives better staying powers. In PATTENING cattle it saves time, feed and money. You can fatten hogs in 30 to 40 days less time. Price 50c and \$1.00 a package; 25 lb. pails, 1200 feeds, \$3.50.

**MAKES INCREASE IN MILK**

Dear Sirs—I have fed Prussian Stock Food to my cows and obtained splendid results. Their milk increased 15 per cent by factory weight on this food during the dry weather. I fed it to my horses. The improvement in condition and spirits was remarkable. I heartily endorse its use.—A. L. SMITH, Dundee, Mich.

**FOR CATTLE.** It makes Cattle fatten quickly and keeps them free from disease.

**FOR HORSES.** It makes horses strong and healthy. ASK ABOUT PRUSSIAN POULTRY FOOD. It increases egg production. PRUSSIAN LICE POWDER kills lice and mites on chickens and cows. PRUSSIAN HEAVE POWDERS cure heaves, cough and distemper. Use the PRUSSIAN STOCK FOOD AND REMEDIES; they do all they claim. Ask the dealer whose name is mentioned below for PRUSSIAN GOODS and for free 68-page Farmer's and Stockman's Hand-book or send to
