Total Abstainers

are becoming more and more appreciative of the benefits of insuring with The Manufacturers' Life Insurance Company, as we not only give Total Abstainers the advantages of special plans and rates, but keep a separate classification as regards mortality. In 1905 the ratio of business done in the Abstainers' Section to that in the General Section was 2 to 3; in 1915, just a decade later, this ratio had changed to 4 to 3 in favour of the Abstainers' Department.

Two essential factors are responsible for this won-derful increase: First, the popularity of our special policies for Abstainers, coupled with <u>public</u> approval of our Assets and progressiveness; and, Second, the growth of temperance sentiment.

Wouldn't you like to carry a policy in a Company that recognizes in a concrete way the advantages you are entitled to as a Total Abstainer?
