BRUISED LEG.

What shall I do for a horse with a big leg caused by his mate kicking him. Swelling started in April.

SUBSCRIBER.

Ans.—Bathe until inflammation is reduced, then apply some of the liniments advertised.

RHEUMATISM.

Mare, six years old, has been wrong for a year, took sick last May; I think from an over drive, she came out all over with pimples. Was pastured all summer until it began to get cold, when she began to get worse; I got her in and she improved, she is in good condition and has lost all her old hair. In cold damp weather stiffens up in her shoulder muscles and she can hardly move her jaws but as soon as the weather gets warm and clear she gets all right again.

Parkdale.
Ans.—Give one dram of salol in the feed twice daily and in the drinking water every day at noon give Fowler's solution, one tablespoonful the first week, two each time the next week, three the next week and increase weekly until four are given at one time.

GETTING COMPENSATION FOR GLANDERED HORSE.

A. and C. traded horses. The horse that C. got had been running in a bunch of glandered horses which were lately shot by the Government veterinarian, A. having taken it from the bunch before the veterinarian seized the remainder. C's horse was tested and shot for glanders. C. received two thirds of the value of horse from the government. Can he collect the other third from A?

Alta.
Ans.—No. **P. G.**

LEARNING ENGINEERING.

Please let me know through your paper if there is a college in Winnipeg where a man can learn to be a traction engineer, and the address of same.

Ans.—No, there is none. Your best plan is to attach yourself to one of the large threshing machine firms and help them rig out in July and August.

POTATO CULTURE.

1. How should the ground be prepared for potatoes?
2. How many bushels per acre should be put in?
3. Is it advisable to cut the seed or plant them whole? Opinions around here seem to differ on this point.
4. Would they do well on timothy sod that was plowed last fall and manured heavily and back set this spring?

R. A. V.
Ans.—1. See May 23 issue.
2. Following the rule of planting in rows three feet apart, and eighteen inches apart in the row, it will take about twenty five bushels of average sized sets.
3. Yes, cut a medium sized potato into three or four sets and a smaller one into two. These give better results than planting small potatoes whole but not as good as if the medium sized tubers were planted whole. The difference in yield, however, does not compensate for the greater cost of seed.
4. Yes, if the sod has rotted to any extent.

LOCATING MOUND.

The half mile mound on the north side of a section has been unintentionally plowed down and lost. What would be the legal way to have it replaced? The parties interested agree that there was a deviation at the half mile in the original survey, that is, in taking a line from the north-east to the north-west corner of section.

H. R.

Ans.—The legal method would be to have a surveyor run the line again from mounds still remaining, or a satisfactory arrangement might be made by running a direct line from the next half mile or mile mound south or north. You would also need to run one of the lines on the east or west side and make the centre line the same length, as the section might contain more or less than the 640 acres.

PERFORMING MARRIAGE CEREMONY.

Is a marriage performed in Manitoba by a justice of peace legal?

ANXIOUS.

Ans.—No. It must be performed by a recognized clergyman.

**When you buy a Fence**

would you not like to know it is to be permanent?

The Dillon Fence is permanent—lasts a life-time and does not demand your continuous attention. The lateral wires are coiled, and where connected with the up-rights are fastened together with the Dillon Patent Hinge, which absolutely prevents bending, rusting and slipping of stays, three annoyances which every farmer, before the advent of the Dillon Hinge-Stay Fence, has had to contend with. The extra quality of the wire used in the Dillon is most important. Every buyer of fence wants to know that he is getting the "best". Dillon Fence buyers have our guarantee. There are many grades of steel wire, but we cannot afford to use any but the best. Can you? Write to-day for our illustrated booklet and estimates.

"Uncle Joe" Cannon has a way of speaking his mind that is sometimes embarrassing to others. On one occasion an inexperienced young fellow was called upon to make a speech at a banquet at which Speaker Cannon was also present.

"Gentlemen," began the young fellow, "my opinion is that the generality of mankind in general is disposed to take advantage of the generality of—"

"Sit down, son," interrupted "Uncle Joe." "You are coming out at the same hole you went in at."

One morning one of the twin brothers went to a barber-shop to get shaved, and a new barber shaved him. In the afternoon the other twin went to the same shop and placed himself in the new barber's chair. The barber looked at the man and then went over to the boss of the shop.

"Boss," he said, "I think I'll go home. I guess there's something the matter with me."

"What's the matter?" inquired the boss.

"Well," replied the barber, "see that man in my chair? I shaved him only this morning, and here he is with two days' growth of beard. I guess I'll quit."

Laird: "Well, Sandy, you are getting very bent. Why don't you stand straight up like me, man?" Sandy: "Eh, man, do ye see that field o' corn over there?" Laird: "I do." Sandy: "Weel, ye'll notice that the full heads hang down, an' the empty ones stand up."

Queen Alexandra, when Princess of Wales, came one day upon a tiny boy crying piteously. He was in charge of a fat and comfortable old lady, who seemed quite unmoved by his grief. "What is the matter?" inquired the princess, who is very fond of children. "Is he ill?" "Well, ma'am," said the comfortable old lady, "he isn't hexactly ill; but no stomach can't stand nine buns!"

A leading American politician recently took his little son to Washington, where they paid a visit to the Senate gallery. Dr. Edward Everett Hale specially interested the boy, and his father explained that Dr. Hale was the chaplain of the Senate. "Oh, he prays for the Senate, doesn't he?" asked the lad. "No," said the politician, "he gets up and takes a look at the Senate, and then prays for the—country!"—*Christian Life*
