Perspiration stains are obstinate beyond compare—a villainous composite of acid, alkali and oil. Each element must be dealt with after its kind. Sponge the spots with a mixture of alcohol and ether in equal parts. Rub dry and touch more lightly with household ammonia. When quite dry, if a blur remains, rub powdered French chalk on the wrong side. In sponging lay blotting paper under the silk to prevent the formation of a "ring."

Had a Bad Cough FOR A NUMBER OF YEARS. WAS AFRAID IT WOULD TURN INTO Consumption.

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately or serious results may follow.

Thousands have filled a consumptive grave through neglect.

Never Neglect a Cough or Cold, it can have but one result. It leaves the throat or lungs, or both, affected.

Mrs. A. E. Brown, Ottawa, Ont., writes:—"I have had a very bad cough every winter for a number of years which I was afraid would turn into consumption. I tried a great many remedies but only received temporary relief until I got a bottle of Dr. Wood's Norway Pine Syrup and after taking two bottles my cough was cured. I am never without a bottle of Norway Pine Syrup."

Dr. Wood's Norway Pine Syrup is the medicine you need. It strikes at the foundation of all throat and lung complaints, relieving or curing all Coughs, Colds, Bronchitis, Asthma, Croup, Sore Throat, etc., and preventing Pneumonia and Consumption.

So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it. Don't be imposed upon by taking anything but "Dr. Wood's." Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

on every well tilled farm. They eradicate weeds, cultivate the soil and under ordinary conditions return 100 per cent profit."

A Wynyard farmer says: "Sheep-raising should be practiced more, as there is more money in it than anything else."

A Nesscliffe farmer says: "The advantages in keeping sheep are that wool and mutton are a good side line and sheep are weed destroyers, costing little to keep compared with profits made."

A Holar farmer says: "Sheep husbandry will increase as the province grows older. There is profit in sheep to the extent that they keep down weeds and produce mutton and wool on feed that other stock will not eat. They also require very little care except at lambing time."

"PAY DIRT" IN THE YELLOWHEAD

Half a dozen young men, ex-army officers from France, it is said, are entitled to the credit of first unearthing the vast coal beds near the Yellowhead on the Grand Trunk Pacific. This coal is said to be equal in point of quality to that of the Crow's Nest, of Vancouver Island, of Sidney, Nova Scotia, and the bituminous coal fields of Pennsylvania. The great find is at the head waters of the McLeod, Pembina and Embarras rivers. Not only is the quantity of this coal good, but there is an abundance of it. Experts estimate that there are eight hundred million tons in sight. The principal vein as tested and analyzed is 28 feet thick, with two or three other veins or strata below, and underlying the main vein. If the builders of the Grand Trunk Pacific could have ordered the placing of these coal deposits they would in all probability

Clip Your Horses In the Spring

In the spring when your horses are soft and you put them at the hard spring work they sweat a great deal. Their heavy winter coat holds this sweat and it dries out slowly. If left to stand they take cold easily and at night they chill and are liable to all kinds of complaints. If you clip them they dry off fast and there is no question but they stand much less chance of taking cold when dry than if wet. You would not like to

stand on a raw spring day or on a chilly spring night with a heavy wet suit on. Neither do your horses. It pays to clip them and blanket, if necessary on cold nights. Your horses dry off much faster, they feel better, rest better, get more good out of their food and do better work. They are better all around. Isn't the humane and profitable thing to do. The quickest, least expensive and most satisfactory way to clip is with
