## PROGRESS OF THE WAR

[August 17 to August 23] THE news from the various battle tronts during the week under review was very meagre, though such news as was forthcoming indicated that hostilities at all fronts were being prosecuted

In the Western campaign, while activity prevailed at many points, the intensess fighting was on the Somme and Verdus fronts. Substantial gains were made by both the British and the French in the Somme district, and the approach Bapaume on the north and to Peronne on the south was perceptibly lessened About Verdun, Fleury and Thiaumon witnessed the fiercest fighting, and afford-

ed substantial gains for the French. From the Russian campaign the reports were few and scant, but the Russians

than in the week preceding, especially in that great storehouse of knowledge.

in German East Africa, and the campaign is likely soon to be finished by the complete conquest of that vast and important colony.

widely extended. It has become so entered in the confidence of Parliament that the only criticism it meets from the party in opposition is that its requests for party in opposition is that its request of the confidence of party in opposition is that its request of the confidence of party in opposition is that its request of the confidence of party in opposition is that its request of the confidence of party in opposition is that its request of the confidence of party in opposition is that its request of the confidence of party in opposition is that its reques

reported to have made important gains in the extreme north of their front. To the east and south of Gorizia the Italians made further substantial progress.

of the record of every battalion and every pose than other foods, is due to the very fact stated, that they are very loose in texture and while easy of digestion, they marks another advance of Canada to

The announcement was made during the week that Portugal was making preparations to enter the European struggle on the side of the Entente Allies, her activities hitherto having been confined to some border encounters with the Germans in German East Africa.

Some minor naval engagements took place during the week, and the reports of them, as well as of the few disasters from mines and submarines, will be found in "News of the Sea."

## PROVINCIAL POLITICS

has been set for September 21. Only one candidate has been announced up to the time of going to press, namely. Hon. Benjamin Franklin Smith, Minister of Public Works, whose acceptance of that office created the second vacancyin the Carleton

the tone of the party press, especially that of the leading government organ. This is the kind of campaign to which the people of Carleton County are accustomed, and in no county in the Province is party feeling more bitter or implacable. The wild creatures of North America are now cent more in fish than in flesh meat. result will be a matter of indifference to being destroyed, fifty years hence there Fish are splendid food on other accounts, the people of the Province at large, for a will be no large game left in the United apart from their chemical, nutritious delayed, the wonder in the minds of im- protected game preserves. VISITORS AT THE BIOLOGIC

Quite a number of visitors from Town and from a distance have Station and taken an interest work during the last few days. interested in the collection of hell-fish and other local marine cre which will develop in the course of years into a fine fisheries museum. On Tuesday Mr. and Mrs. Ganong, of St. Stephen, motored the Station accompanied by a well and popular member of the D and popular member of the De House of Commons, Mr. E. Gus Po Belleville, Ont., and Mrs. Porter, spent some time inspecting the labe and its wonders, and were enterta afternoon tea by Mrs. A. G. Hui Miss Haiste assisting. Mr. Porte oned the interesting fact that his townsman and Ex-Premier of the ion, Sir MacKenzie Bowell, had his services as an old military o the Government, though he is now ninety-second year. Sir MacKen just returned from British C where he contemplated the arduto the Yukon, but though vigour active, his great age forbade the volved. The only son of Mr. Gu

### A SEA MONSTER VISIT ST. ANDREWS

is on active service as a com-

The staff of the Biological S port the visit to to the shores of rews, on Friday and Saturday las nteresting member of the whale Mr. Arthur Calder, an officia Station, noticed a rather unus like an exposed bank of chalk or protruding from the surface water between Joe's Point and Re A number of the staff kept wa monster. They identified it as or northern white whale, so called Beluga leucas. It swam r the river towards Sandy Point, the surface, and descending again graceful gliding movement. its white arched back five or si succession when breathing, and out of sight for seven or eight and re-appeared much furthu river. Doubtless it was feeding herring, or possibly on jellyfish extent, as they are very abundan The beluga is a toothed wha to the grampus, the porpoise feet, though some are said to re 30 feet. The head is small and front, while the body is mas iv The pair of flippers or brea short and powerful; and the ta vertical as in fishes, but is he in all the whale tribe. When as the creature grows older ma and in later life they are usu from the upper jaw. The skin

young it is brownish or blush The beluga is not a fish, any is a highly organized mammal, blood, and breathing air by surface to breathe or "spout." It is a rare visitor to the Ba plentiful in the estuary of the S out very abundant in Hudson Hudson's Bay Co. have car sively the capture of traps, arranged inshore, like s but on a larger scale. As the the belugas find themselves when they are stranded the with knives, and remove th oil. The skin is valuable and verted by tanning into the soft, flexible, and of great s

relished by the Eskimo in or After exploring our snor eight hours, this interesting the deep sea returned to the It is probable that the l which was seen in the five beluga, and a very large on Digby Basin about twenty of its large ribs and other b seen in gardens in the town
