

"YOUR HEALTH IS— —YOUR WEALTH"

DO NOT TRIFLE WITH THE HEALTH OF YOUR FAMILY

THE BROOM NO LONGER IS GOOD FOR ANYTHING BUT FUEL. INSTEAD OF CLEANING, IT JUST STIRS DIRT UP INTO THE AIR. THE DIRT NATURALLY SETTLES BACK ON THE FLOOR OR FURNITURE, THEN YOU MUST "DUST"—A TERRIBLE, STRAINING PROCESS.

THEN, TOO, THIS DIRT YOU STIR INTO THE AIR IS VERY DANGEROUS. IT IS LADEN WITH DISEASE GERMS AND YOU AND YOUR TOTS BREATHE THEM. THINK OF THAT!

THINK WHAT IT MEANS to the housewife to have the Cleaner run over her floors once or twice a week instead of sweeping them with a broom or carpet sweeper. Realize how absolutely clean she will keep every inch of her carpets with less effort than the old efforts require, dispensing forever with house-cleaning days, keeping her home clean ALL THE TIME, just the same as it was right after house-cleaning time of yore.

Men's Work Has Been Lightened and Systematized by Means of Labor-Saving Machinery Why Not a Woman's?

Dr. Kellog, President of the Battle Creek Sanitarium in One of His Lectures, Stated:

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct; the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!"

If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

J. M. Werzke, A.M., M.D., the world's recognized authority on bacteriology, in a recent lecture, said:

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to place a number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. For free demonstration telephone the Courier Office. Both phones 139.

MOVIE FILMS THAT MAKE FLESH CREEP

Uncensored Pictures in Rural England—Many Scenes of Horror are Depicted.

LONDON, July 28.—"I spoke to a boy about twelve years old who attended a motion picture show in a little country town a week or two ago, and he positively trembled as he reported what he had seen. He said, 'I shall never go there again. It was horrible.' I said, 'What was horrible?' He said, 'I saw a man cut his throat.'"

"This is no exaggeration," says Canon Rawnsley, a well known poet and minister, who is heading a big agitation in England against unwholesome motion pictures. "It was told to me personally, and is really only one of a number of incidents that have come under my notice this month, proving that there is passing over England a real craving for scenes of horror."

Amongst the titles of films which are being, or have recently been exhibited, he instances the following: "Massacre: A Terrible Tragedy," "The Wheel of Destruction," "The Auto Race. The auto when going at a prodigious rate overturns, and buries its living occupants."

"Dogs Killing Rats in a Rat Pit," "A Public Execution in the East." To those picture proprietors who maintain that their exhibitions are for the moral improvement and amusement of the masses, Canon Rawnsley replies: "Look at your posters and the items of horror or fierce excitement or degrading sensationalism which, in spite of the British censorship, are still being exhibited up and down the country to the detriment and discouragement of the nobler feelings of gentleness and compassion."

"The worst of it is," he adds, "that neither the police, nor the agents of the motion picture firms who present out as exhibitors are sufficiently educated to know what is horrible and what is not."

"What the public really need is that in every town where motion picture halls are springing up like mushrooms there should be trained inspectors, men and women, who should know at a glance a down-grade or demoralizing film, and should at once report it to headquarters."

"If," he adds, "the English people wish to commit race suicide they can do it by overtaxing the brain energy of the very young; and never has human ingenuity invented a device more efficacious for this sinister end than the motion pictures."

"Further, I have seen it stated by a scientific expert that one of the results we must look forward to is a development of the disease of the eyes, and he incidentally mentions that one of the symptoms of this pleasing complaint is an increased activity of the lacrimal glands."

"If this is true—and it is quite credible—let us contemplate the England of the next generation as peopled by men and women who have had their nervous systems split their imaginations ruined, their curiosity crushed, in order to learn one thing only, viz, how to weep at nothing at all."

THEY ALWAYS HELP THE OLD FOLKS

Why Mrs. Dionne Praises Dodd's Kidney Pills. "Publish it to all the world that Dodd's Kidney Pills cured me." Those are the words of Mrs. Dionne, an old and respected resident of the place. And sure that cure was a wonderful one. Mrs. Dionne had reached the advanced age of sixty-nine years when all health overtook her. From 184 lbs. she wasted away till she weighed only 120 lbs., and she was a very old woman, indeed. Speaking of her case she says: "My back and head ached, my heart troubled me, my sleep was broken and unrefreshing, and I perspired freely at night. I also had a pressing or sharp pain on the top of my head, and I found it difficult to collect my thoughts."

"It was at this stage that Mr. Dionne concluded that her trouble came from her kidneys, and she turned to Dodd's Kidney Pills. The first box helped her. She took twelve boxes, and is cured."

Dodd's Kidney Pills always help old people, because when the human body starts to wear out, the kidneys are the first to go. Dodd's Kidney Pills always cure the kidneys.

Nine men working below at Glespi-Pit, in Lanarkshire, were rescued during the recent floods. The flooding became rapidly so alarming that rescue parties were at once got together to get the men to the surface. This was accomplished with great difficulty, the last man, who was brought to the surface in a state of collapse, being almost immersed when he was rescued.
