THE CITY COUNCIL ROUTINE HAD SOME INTERESTING FEATURES

Purchase of New Road Roller is Discussed---Committee Reports - House of Refuge Insured for Only \$13,000---Grant Made to Old Home Week---Other Business.

The city council session last night the committee from the committee from lasted until 10.15, and it consisted of the reading and adoption of four committee reports, consideration of a committee reports, consideration of a committee reports, consideration of a committee from the committee from the care of the feeble-minder by-law and a few other minor mat-ters. A grant of \$500 will be given the city clerk of Hamilton to this All of which is respectfully subto Old Home Week, and there is effect.

Recently it was discovered that the House of Refuge only car-lon all the city buildings and all the necessary contract. ried \$13,000 insurance, a mere trifle as compared with the value of the building, and Ald. Hollinrake's committee thought it was time to make an inquiry in regard to all other civic

Mayor Spence has not only shown himself to be somewhat of a fighter but he is a diplomat besides. Last night the council had its first tie vote on the appointment of a garbage collector, but the mayor wouldn't break the tie, and the committee which recommended Albert Churchill for the job will have to go back and fight it out again. Ald, Bragg and Sutch put up a vigorous fight for William Holder, while Ald. Hollinrake had Leslie Anguish in front for a while. It developed into a question of ward rights, and the mayor refused to iaterfere in what he regarded as a plain aldermanic duty.

Rather Startling.

It was the opinion of the Mayo and council that it must have been an office boy in the office of the Waterous Engine Works who wrote the council telling them, that the old road roller was only worth \$50.00. Mayor Spence regarded the letter as insulting to the intelligence of the buildings of the boards and institucouncil. The road roller was used tions to which this city in any way factory. Ald. Pitcher believed that last year, and doubtless is the worse makes a grant of money or on which of wear, but the mayor had the com- this council is represented. And that mittee report changed to read that an advisory committee composed of tenders be called for the supply of a Messrs K. V. Bunnell, Thomas new road roller rather than that one Hendry and J. S. that the present road roller could be rebuilt. The board he said was sufficiently economical to advise such a course if it were possible. A road roller was essential and the present one had been used for 16 years. It was useless now. A road roller was an urgent need right now. The board had asked the Waterous Engine Works for estimates, and the firm repairs would cost nearly as much as a new machine. It would cost \$2,500 to repair the old machine and would be done on regular shop prices. The Government boiler in-

spector had reported that the boiler was unsafe for use. The cost of a new machine would be \$3,200. Overseer Howie said the old roller condemned by the inspector could The city council session last niggt the committee from Hamilton in its Council, dated February 5, 1914; not be used.
