

BIG CARNIVAL AT THE EXHIBITION

Varied Attractions by the Nat Reiss Company--- Some of the Special Features

F. F. Parker, advance agent for the Nat Reiss Carnival company, arrived in Regina Monday for the purpose of making arrangements for the big show, and he said it would take a special train of ten cars and coaches

NAT REISS

to bring it to Regina. Mr. Parker also enumerated all the acts so well known to visitors to fairs throughout the country last year, showing that Mr. Reiss still has along all the head liners of last year.

One Ring Circus

The tent which will be a one ring circus, Mr. Reiss claims to be as big as that carried by Forepaugh & Sells and is much larger than the one last

year. Many extra performances have also been put on and the general character of the show improved. In the one ringed circus will be seen trained animals, chief among which will be Madame Wanda with her won-

derful troupe of carriage dogs, claimed to be the only troupe of the kind in the world. The simileta troupe of acrobats will also be seen here and the McDaniels family in a wonderful aerial act.

The usual equestrian acts will also be seen and Mr. Reiss asserts that these are better than they ever were before. Besides all these attractions in the one ring circus there will be four clowns who will be sure to de-

light the children as they always like these buffoons better than anything.

Three Free Acts

Among the free acts which Mr. Reiss has this year will be Maximo, the great high diving dog, the McDaniels family in their aerial act, and a member of the Simileta troupe doing acrobatic stunts. These will perform from time to time on Midway, and no charge will be made for any of these shows.

Other Attractions

"Dixieland" has always proven a drawing card. It is an imitation of an old time Mississippi river boat laden down with cotton, and inside the cabin darkies sing and carry on as they used to do in the ante-bellum times.

Mr. Reiss has a capable band of glass blowers at work and visitors to the show will be able to see how glass is blown, and any desirous of taking away a souvenir of a handsome little glass ornament or article of use.

Baby Incubators

The baby incubators will probably attract more interest than anything else in the carnival. One is perfectly familiar with the incubator for hatching and rearing chickens, but these incubators for babies are no less attractive with the infants of the human race than the others are with the young of the feathered tribes. A doctor and several trained nurses are carried along all the time to attend to the wants of the babies who receive more care and attention than if they were born to a royal household.

"An escape from Sing Sing" never fails to please an audience and large crowds go to see this representation of an escape from a famous penitentiary. Mr. Reiss has had this show with him for many years but he says the public seem to like it so much that he continues to keep it.

Vaudeville Performance In the red dome a good vaudeville performance will be given, which Mr.

Dabster Disciplinarian of DANDY DOGS

MADAME WANDA'S FAMOUS DOGS

Reiss says he has taken special care to have clean and inoffensive.

Agas

Agas, who is a pretty blonde, is placed in a coffin and remains suspended in midair while a hoop is passed right around her to show that there are no wires or other means of support. Before being placed in the coffin she is supposed to be put into a mesmeric trance but the lecturer himself admits that this is only done to attract the attention of the audience. This is certainly one of the best shows on the midway.

Mr. Parker is anxious that the business houses should decorate for the occasion, which is an idea that will doubtless appeal to a good many people as it will serve to make the city attractive.

GOOD RESULTS

The Hague, July 14.—Notwithstanding the pessimistic views held in some quarters regarding the peace conference and its work, the members of the American delegation feel confident that some good results will be realized by the exchange of opinion among the plenipotentiaries of the country represented. It now appears that all propositions will be satisfactorily received. Question of immunity of private property at sea, although bitterly opposed will have a considerable majority in the vote, and this will be a further step toward the addition of this principle in another conference.

The rule regarding the bombardment of unfortified towns, villages, etc., originally presented by America, will be substantially adopted with the approval of the proposal drawn up by the Italian delegates, bringing into harmony the different views on this subject.

MAXIMO The Dog that takes the Highest Dive in the World

WORKING IMMIGRANTS

Story of Deception worked on People coming to Winnipeg--False Contract

Winnipeg, July 12.—A sad case of distress in which Charles Williams, an English immigrant, and his wife and family are the sufferers, has come to the notice of the civic relief authorities through the management of the Margaret Scott Nursing Mission. According to the story told by the members of the Williams family, documents presented by them, add them and the evidence supplied by the present destitute condition of the family, they have either been induced to immigrate to Canada by misrepresentation or have been the victims of an unfortunate misunderstanding.

Before leaving England, Mr. Williams secured an agreement for employment from N. C. Powell & Co., of London, who claimed that they were representing J. D. McArthur, railway contractor. Arriving here Mr. Williams found no work in sight for him, and now it is stated that Mr. McArthur knows nothing of the firm from which the agreement was secured. Williams paid \$5 for the agreement.

The family had little money when they reached the city, and the bread winner failing to find employment, that little was soon gone. He left for Sandy Bay yesterday to find employment. All day long Mr. Williams fringed the streets to find work by which she might earn enough to support herself and family. She failed to do so, and late in the afternoon collapsed in the street, and was taken in charge by the police.

\$50 FOR LIBRARY.

The Estevan Mercury says: According to the notice published last week, J. T. Brown, M.L.A., came to Estevan on Tuesday and conferred with some of the townspeople on the advisability of taking advantage of the opportunity for establishing a public library in Estevan. He explained the provisions of the library act and offered to donate \$50 toward the required funds to get the library established. Those with whom he talked all favored taking up the scheme, and it is likely that as soon as can be the council will go into the matter.

ENEMIES OF

Minister Links Bryan as Opponent of Great

Seattle, Wash., July 12.—A large number of Congressmen in a tent at Willits Landrath of Nat dress on "Graft and ed the names of Roo relief authorities through the manage ment of the Margaret Scott Nursing Mission. According to the story told by the members of the Williams family, documents presented by them, add them and the evidence supplied by the present destitute condition of the family, they have either been induced to immigrate to Canada by misrepresentation or have been the victims of an unfortunate misunderstanding.

COMING! "YOUNG"

WATCH FOR

SANE VIEW
