GRAND TRUN

It's Your Nerves.

It's the Condition of Your Nerves That Either Makes Your Life a Round of Pleasure or a Useless Burden.

To many women life is one round of sickness, weakness and ill health. To attempt even the lightest house-hold duties fatigues them. Many of the symptoms accompanying this state of decline are: a feeling of tiredness waking, faintness, dizziness, sinking feeling, palpitation of the heart, shortness of breath, loss of appetite, cold hands and feet, headache, dark circ'es under the eyes, pain in the back and side and all other accompaniments of a run down and weakene dconsti-

All these symptoms and conditions are simply the result of a poor quality and defective circulation of the blood, with a wasting away of the

nerve forces.

By feeding the system with

PERSONALITIES.

Congressman Littlefield of Maine always dresses in black. Even his ties are of that somber hue.

Congressman Bingham of Pennsylvania is said to own more suits of clothes than any other man in Washington. Many congressmen find a knowledge

of shorthand useful in debate, and Congressman Hitt of Illinois is quite an expert stenographic reporter. Governor Steunenberg of Idaho is physically the most impressive govern-

or in this country. He is far over six feet tall and of herculean figure. Senator Depew is of the opinion that had there been a successful national university at Washington 50 years ago there would never have been a civil

Representative Jefferson M. Levy of New York owns and maintains Monticello, the home of Thomas Jefferson, "in keeping with its distinguished traditions.

Lewis Wilkins, a native of St. Paul, is said to be the tallest man in the world. He is 8 feet 11 inches tall, broad in proportion and weighs 364

Congressman Charles B. Landis of Indiana is a close friend of James Whitcomb Riley, the poet, who is always the congressman's guest when in Washington. The costume of Senator Platt of New

York is almost unvarying, except in very warm weather. He always wears a black Prince Albert coat and trousers of striped gray. George Frederick Williams of Boston is a blue eyed, light complexioned, well dressed bachelor of 44. His father,

a German, came to America as George

Weinigman, but changed the name to Williams. Levi P. Morton of New York is a firm believer in Friday as a lucky day. centrary to general opinion, and in making big real estate transactions always arranges so that they take place on that day of the week.

William Waldorf Astor was always tolerably skilled with the rapier, and since taking up his residence in England has continued practice under the best swordsmen until he is a match for some of the most noted duelists in Eu-

The popularity of ex-Governor Pingree of Michigan among the Poles and Hungarians of Detroit is in a large measure due to his ability to speak the languages of those people. When he started out to work among them he first took lessons in their tongues.

One English-marquis has to work for his living. The Marquis of Normanby, who was a clergyman when he succeeded to the title ten years ago and is now a canon of Windsor, found his estates heavily incumbered. He thereupon turned schoolmaster and opened preparatory school for the sons of noblemen and gentlemen that has brought him money.

THE GLASS OF FASHION.

The directoire coat is appearing in lace as well as in silks and satius, and it is always effective.

Persian embroideries come to the front more and more and are particularly lovely upon the soft white woolens. It is said that this trimming will be a great feature of winter modes.

The summer girl is carrying just now the prettiest of muslin parasols to match her muslin frocks, and she looks a picture with them-like an up to date Dresden shepherdess.

Some of the chiffon ties have gayly flowered ends. The flowers are made of an additional layer of chiffon appliqued on with brilliant colors of silk, which make gorgeously effective posies.

The extremely sheer white blouses of the moment have called into being cache corsets more ornamental than ever and added another item of neces sary expense to the outfit of the well dressed womar.

Blue in its varying shades-ciel, turquoise, tendre, hyacinth and the restis perhaps the reigning color of the summer season, possibly because it lends itself so well to combination with the omnipresent velvet.

The strapping of the spring season will, it is promised, be still more in evidence on fall gowns. Bands of stitched satin or velvet ribbon, taffeta, peau de soie or cloth are on almost all of the few autumn gowns already shown, and elaborate inlays of taffeta appear upon crepe de chine, light weight goods and

ITEMS OF INTEREST.

Morocco is famous for its fine mules. The best come from Fez and are worth \$200 each.

An Irish actress says that nothing would induce her to wear a green gown upon the stage, because green is an unlucky color.

On account of the great heat of the middle of the day in Egypt a caravan journeys in the early morning and in the evening. During the heat of the noon hours the tents are pitched and men and beasts get through it as best

they can. The building at Guthrie, O. T., in which most of the territorial offices are located is infested with scorpions Two of the poisonous reptiles were recently killed in the rooms occupied by the school land department. One of the scorpions stung Charles Cunuing-ham, a clerk, in three places on his body, but the injuries did not prove FATE OF THE CONFEDERATE SEAL Pirst Defaced and Then Sunk in the S vannah itiver.

The result of the last Confederate of war held at Appeville, South Carolina, in May, 1865, was soon known all over Abbeville, and the Generals and the Secretary of War were kept busy for hours signing honorable discharges for the tired seldiers, who immediately ap-plied for them," writes hirs. Thad-deus Horton, in the October Ladies' Home Journal. "During the even-ing Mr. Benjamin asked for a hat chet, and with it he defaced the Confederate seal. About twelve o'clock the same night the Confederate party continued their retreat in the direct tion of Washington, Georgia, and while crossing the Savannah River in the darkness some one suggested that the seal be thrown overboard. This idea was at once approved, and when the boat reached mid-stream it was dropped with a dull splash into the sandy river bed of that beautiful Southern watercorse, where to this day, its mission all fulfilled, it serenely rests."

Sheep as a Farm Product.

The growing crops prove that there is richness in our soil. On untilled land the weeds tell plainly of the fertility of our so-called waste places. From year to year our county has made a neglected and woolly appearance for the simple reason that we do not raise weol. Cattle will not thoroughly clean land, but sheep will and at the same time improve the sofl. In addition to the polish each would show if there were a flock of sheep on it, the income would be better than any product of the farm. With a reasonable number sheep there would be thousands dollars to the credit of the farmer where there is not a dollar.

The Earth Is a Glutton.

Nothing is too big nor too small to escape the maw of our hungry Quicksands are the traps she spreads for the smaller fry. Probably the worst and most dangerous n the world are the "shotts" of the Sahara. These are perhaps the dregs of some prehistoric sea. Now they are covered over with a thick crust of salt and sand. Whole caravans have walked unconsciously into these death traps and been quickly swallowed up. Reclus, the great French authority, declares you can sound these quicksands to a depth of feet without finding bottom

Song Writers' Congress A Congress of the Song Writers France is to be held at the laris Exposition, apropos of which a l'arisian newspaper suggests that suitable subject for discussion would the French song of which there are three classes. The song of the Cafe Chan; ant, cearse and stupid; the song Mentmartre, with its spice of politics, and the Socialist song, is somewhat stealthily circulated.

Spain a Land of Wealth.

The natural wealth of Spain normous. It has been neglected for lack of enterprise. Its mineral deposits are the richest in the world. They will afford a stimulus to industry and will contribute a vast revenue to the people. By concen trating within its own realm the effort and aspiration which Spain has heretofore dissipated on its colonies it may in time regain much of glory and importance which it once enjoyed.

Effective Turkey Medicine

I have seen mention of turkeys b ing lost on account of bowel trouble Several of us have lost turkeys from the same cause, but we think have hit upon a sure cure for it, and comparatively nothing. We did not lose a turkey after using the remedy. Get five cents' worth of venetian red, such as painters use, and mix it in the food and water for the turkeys, keeping all other water away and compelling them to drink the "medicine." This seems simple enough, but it does the business.

The French Mushroom Crop.

The annual crop of mushrooms France is valued at \$2,000,000. and it is said that there are 60 wholesale firm in Paris dealing exclusively In the department of the Seine it appears there are some 3.00 caves in which mushrooms are grown and about 300 persons are employed in their culture, and rarely leav

The 50-Year Old Man.

Salmon Shot From Steamer Decks. Steamboat men, coming up the strait report great sport shooting salmon with small rifles, with number of which each vessel is pro vided. The fish were jumping thick, says The Seattle Post-Intelligencer, that many were killed from the decks of steamers.

Last summer I had company, —a man and his wife. The man's hands and face had dry, sealy sores on them, and his bead was covered with the came, his heair being full of those white scales or scabs. His wife said, "Some mornings she would find a tablespoonful or more of them in the bed." I asked him what slied him, and he replied "that he did not know." "Why don't you cure yourself?" "I would give a hundred dollars to be cured. I have paid out a lot of money, but don't get cured," he said. Well, I told him to get the Curricura remedies and he would be cured. As he was living in Bristol, Vt., I did not see him for some time after, and then he fairly shouted to me: "I am cured. Curricura has done it. The Lord bless you and Curicura." Mrs. SARAH'E. MINER.

THE WATCHWARD OF WOMEN.

Modesty is woman's watchward. Whatever threatens her delicate sense of modesty, frightens her. For this reason many a woman permits dis-eases of the delicate womanly organs to become aggravated because she can-not bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which some physicians find necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter, have been led do so by the escape thus offered from a treatment repugnant to modesty. Any sick woman may write to Dr. Pierce, Buffalo, N. Y., in perfect confidence; all letters being treated as strictly private and sacredly confidential, and all answers being sent in plain envelopes with no advertising or other printing upon them. Dr. Pierce's Favorite Prescription has been long halled as "a God-send to women." It makes weak women strong and sick women well.
