The exhibition at Halifax this week has been a very successful affair and has been largely attended. Although the prize-list in full has not yet been published, we notice that a number of the prizes come to this county.

The doggers advertising the race this afternoon bear the startling announcement, September 23d. They weren't printed in a Kentville office.—Western Chronicle.

No: they were printed at the office of the ACADIAN, and in accordance with the "copy" furnished, which unfortunately was incorrect. The work was done in a great hurry, hence the error in the "copy" was not detected. A job appeared at the race-course on Wednesday of last week, however, which was printed at a Kentville office, and bore the unmistakable imprint, in which such gross blunders appeared as would lead one to exclude the author from being qualified to criticize work done at another office. "Those who live in glass houses," etc.

The Presbyterian College Board has determined to erect three houses near Pine Hill College, as residences for professors, who will pay, as rent, the interest on their cost. The construction of two of the houses, which will cost about \$5,000 each, has been awarded to a Toronto firm, and the third building goes to a Dartmouth contractor. The College Board is to make a nomination to the Presbyterian Synod for the appointment to the chair of systematic theology at Pine Hill College. Three persons made application for the situation, one in the United States, one in Scotland and one in New Brunswick. Five different persons were nominated by the Synod. The Board adjourned to meet at New Glasgow on Oct. 3rd, and then to make a final nomination.

Governor Fraser, Dr. Harrison, chancellor U. N. B., Rev. W. McDonald, Rev. Dr. McLeod, Mayor Beckwith and H. C. Creed. To these Mrs. Prof. Jones, of Wolfville, replied on behalf of the Maritime Union.

We are to have a skating rink this winter after all. Mr. S. P. Heales has secured a site on Water street, opposite the Skoda Laboratory, from Mr. J. G. Eagles and Mrs. Joe Weston, and has already begun operations. By the time cold weather comes we will have one of the best rinks in the Province. The building will be 130 feet by 65 feet, and will be fitted up in best style for the accommodation of skaters. The ice will be blown in shape instead of sound as in the old rink. We congratulate Mr. Heales on his enterprise and wish him abundant success.
