There was little important testi-mony given this morning other than that of the identification of the body, a description of the locality and of the wounds on the body. Mr Dresser, who searched the body, testified that he found no money on it and Coroner told of finding a club near the body with which he believed blow had been struck. Dr. Charles M. Leighton described the wounds, saying that the skull had been fractured and all the arteries of the throat severed. Eitherwound would have caused death, though the condition of the body showed that the blow on the head must have been given first. The afterncon was devoted to identi-floations of Cole by residents of Fal-mouth, who say they saw him on the day of the murder with anothor man, presumably Steeves. Feed a cold-yes, but Down. New York, Oct. 4.—A special cable despatch to the Sun from London says: The amateur athletic association has permanently suspended Alfred Shrubb, the English champion distance runner, for malpractice in sports. Last August the association refused' Shrubb permission to go to Canada and the United States to compete for championships there. The reason for refusal was not made public. On August 7, Shrubb won the five mile run at Hoasham in 24.5115 which was 0.8145 better than his own world'srecord. Then it was anounced that he was going to Canada and the United States. Later Shrubb lost Ib mile race to J. McGougb, the Scotch distance champion, and it was stated Shrubb ran in a very list-less style. On August 15th the associ-tation refused permission to make the trans-Atlantic trip. feed it with Scott's Emulsion. Feeding a cold in this way kills it.
