Train Strikes Team.

The outgoing train vesterday morning ran into a truckman's horse and slide at Browning's Bridge. The truckman had a narrow escape. He foolishly tried to cross the bridge when the train was only a few yards down the line. The horse cleared the track O. K. but the engine bumped into the slide, and turning it over nitched the driver by the side of the wheels. The torse dashed off and the truckman holding the reins was dragged clear of the engine. The engineer stopped the train, thinking that the truckman was ground up by the wheels. There was a general sigh of relief when the truth was known.

HARD ON TRAIN HANDS. - The train hands suffered a good deal owing to the cold the past 24 hours. A regular blizzard raged going around Conception Bay vesterday.

I saw Dr. Chase's Kidney. Though I tried several medicines I got no better. I saw Dr. Chase's Kidney-Liver Pills advertised and bought five boxes. After I had used three boxes, I was greatly improved and by the time I had them all taken felt as well as I ever did. I would advise anyone suf-fering from kidney disease to use Dr. Chase's Kidney-Liver Pills.

Value of Good Memory

The trouble with old men usually is that their memories become overwas quitting work for the day when loaded with actual and psychic facts, among which they are unable to disoil, used for refining saws. One leg, tinguish those that have a value for the present and those that have become obsolete. Generally speaking, an old man knows a great deal more than a young man, but, says the Diefetic and Hygienic Gazette, it does not necessarily follow that he is wiser. While, therefore, a strong memory is a great convenience, it not necessarily an advantage.

Cardinal Mezzofanti, whose memory for words was so retentive that he never forgot one after hearing once, and which enabled him to acquire more than a hundred languages, was in most respects a very ordinary person. Pliny relates that Mithridates, King of Pontus, had so excellent a memory that he was able to speak fluently twenty-two languages native to the provinces of his vast empire. Yet he was a cruel barbarian.

A well known peripatetic elocutionist and reciter still living declares that he can repeat without further preparation about 3,000 selections in prose and poetry. He probably tells the truth, since he has been training his mind in this particular lirection for many years. On the other hand, such men as Si
