We Know Just How You Feel!

You need an engine for your boat and you are worried almost to death trying to decide which is the best one to buy. One fellow tells you to buy his machine because it is cheaper than others. Another firm advises you that they have been in the engine business longer than anyone else and therefore their machines are the best. Then along comes another chap with an engine which he claims is entirely new and better than anything else on the market.

NOW LISTEN.

DON'T buy an engine of any other piece of machinery because it is cheap; probably it has been made cheap.

DON'T experiment with new designs, let the other fellow do that.

DON'T depend too much on what any manufacturer says about his own product. Ask someone who has used it.

We would like to give you names of parties using FERRO Engines.

Write for catalogue with prices and terms, also ask for list of prominent men throughout Newfoundland who are using FERRO Engines. Ask them what they think about the FERRO.
