

## Nitrate of Soda!

THE GREAT FERTILIZER.

Owing to so much being used in the manufacture of Explosives and to the resultant restrictions on its export, and to the scarcity of tonnage, it is nearly impossible to secure any of this commodity for Spring shipment.

By looking ahead we were fortunate in getting a shipment per Red Cross Line steamer for late May or early June shipment.

We are now booking orders to arrive at lowest prices, subject to safe arrival, and would strongly recommend our customers to engage their requirements without delay, as we only have a limited quantity to offer, and further lots may be unobtainable later in the season.
