Coal Development.

MORLEY'S COVE MINE "EXCEPTIONALLY GOOD."

The Trinity Bay Mining and Development Co. Ltd., have resumed work on their property at Morley's Cove T. B. For the past week a crew of men have been working, and report excellent progress. From a gentleman belonging to the city who has had several years experience in coal-mining, and who has just returned from a visit to the property, we learn that, in his opinion, less than three months work should suffice to demonstrate fully the value of the property, and further, he is convinced that they are working on something "exceptionally good" to use his own expression. We wish the Company success, and hope that in the very near future, their fondest hopes may be realized.

Cub Cigarettes are appreciated, not only by the smoker but by those in his company.
