

WHO IS RESPONSIBLE?
The large deficit announced by the Finance Minister in his Budget speech, and the consequent necessity for increasing the revenue by \$3,000,000 additional taxation, affords the Tory press a text for attacking the present Ministry and bringing against them the usual charges of recklessness and extravagance. As the increase is almost entirely due to the carrying out of the policy of their predecessors, these charges are extremely absurd and illogical. To Sir John's Ministry belongs whatever credit or discredit may attach to the large increase in official salaries which took place last year, the expenditure necessary in connection with Manitoba and the Northwest and other large items. We do not propose to argue that the late Government was to blame in the matter; in fact we do not see how any Government could well have acted otherwise as regards the majority of the items—but the factious nature of an Opposition which attacks policy which they uphold when inaugurated by Sir John A. Macdonald, is very apparent.—Toronto National.

THE WELSH FUSILIERS AND THEIR NEW CASHMERE GOAT.—Describing the review at Windsor, on Monday, the correspondent of the daily News remarked that the Fusiliers seemed to have considerably trouble with the goat lately presented to the regiment by the Queen. Three privates were laboring hard to induce him to walk respectfully from the front of the regiment to the bands, but he hung back and persevered in his perversity in spite of blows and coaxings, while one man hauled at him from the front, another hooked his long white hair, and a third tickled his ears. The goat was, however, as impervious to coaxing as he had been to thwacking, and, gaining boldness, butted vigorously at the shins of the patient Welshman. As it would have been a royal view should be delayed by a goat—Cashmere though his pedigree might be—the men without further ado, seized him firmly by the horns, and dragged him ignominiously over the grass into the centre of the block of musketeers.

The working men who voted for the Tories at the general election in Britain are already beginning to regret that step. The late Government was prepared to deal with the Master and Servant Conspiracy and Criminal Law Amendment Act, both Sir Henry James and Sir William Harcourt having specially undertaken at least two of the questions. But now it is stated, a Royal Commission will be appointed to consider the first matter just as though no commission had ever inquired into it before, and obtained eleven volumes of evidence. If a Government with a majority of fifty does not think it strong enough to deal with a question like this is it fit for?

The United States Commission to make an exploratory survey with a view to locating a line for a canal across the isthmus of Panama, has been pushing the work vigorously. It would appear from the determined manner in which the American Government have set to work to find a practicable route for a ship canal between the Caribbean Sea and the Pacific Ocean that they are bent upon accomplishing the undertaking, if it is at all practicable.

In the island of Goa, near Bombay, there is a tree called "sorrow tree," because it only flourishes in the night. At sunset no flowers are to be seen; and yet, half an hour later, it is quite full of them. They yield a sweet smell, but the sun no sooner begins to shine on them than some fall off and others close up, and thus it continues flowering into the night during the whole year.

RECIPROcity.—We have the best authority for saying that the delegates who recently went to Washington have succeeded in accomplishing the main objects of their mission. Negotiations are still going on, and a report of the result will soon be laid before the House. It is understood that manufactured articles of a certain class are to be put on the Free List of both countries. This does not look like Free Trade, it is true, but then our manufacturers in Hamilton, Oshawa, and other manufacturing places, will have an opportunity of underselling our United States friends, even in their own country. We have heard of several manufacturing firms in Ontario, who, in view of Reciprocal Trade relations, intend to ship a large number of Canadian Sewing Machines to the United States. We hope their venture will prove successful.—Walker's Telescope.

BEERAST.—Epps's Cocoa.—GRATIFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctor's bills."—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co., Homoeopathic Chemists, London."

Potatoes do. 1.00 to 1.15

London Medical Institute.
This institution is established for the most successful treatment of all diseases pertaining to surgery and medicine. In every instance are all medicines rejected, be they vegetable or mineral, that are capable of producing mischief, or incompatible with organic tissue, such as mercury, lead, zinc, etc.; contending that every character of disease, if curable at all, will yield to those agents which are mild in nature and capable of neutralizing and rendering harmless that morbid matter in the circulation which engenders and supports disease. The remedies employed are less depressing to the vital powers, more in harmony with the efforts of nature, and attended with better success, than the generally adopted system of medicine. They are prepared upon scientific principles perfected by time, study and research, for the special cure of all lingering chronic diseases, some of the most important and serious of which we here mention, and in which our treatment has proved to be signally successful, viz: All diseases of the lungs, throat, heart, and chest, asthma, catarrh, bronchitis, all diseases of the nerves; atrophy, curvature and all diseases of the spine; convulsions, cramps, and spasms, goitre, or enlarged neck, epilepsy, disease of the mind, melancholy, etc., consumption in its first and second stages, dyspepsia, and all diseases of the stomach, liver, kidneys, etc., scrofula, and all other skin diseases, tumors, and morbid growths, ulcers, and indolent sores. Cancers are effectually cured without the use of a knife, and hernia ruptured with or without an operation. Other diseases of a grave nature might be given, but it is quite unnecessary. Special attention will be given to female complaints of all kinds, such as the great bearings.—Every disease of the eye and ear successfully treated, and every operation in ophthalmic and aural surgery performed upon those principles that the science of the Old and New World has shown to be the most successful, as demonstrated in the largest ophthalmic and aural hospitals, institutes, and infirmaries in Germany, France, England, and the United States. Cross eyes will be straightened with very little pain. Cataracts will be removed with or without cutting. Inflammation and ulceration of the eye are speedily and permanently cured. Incurable cataracts are often cured of serious inflammation by rubbing the lash upon the eye. Sight has been restored for many years. Out-turning eyelids are at once cured and original beauty restored to the face. Granulated lids thickened along the edges, or in a state of adhesion readily cured. Also watering of the eyes.

The institution is in possession of every facility and original means of successful treatment. Efficacious agents or remedies are imported per order, and kept on hand fresh and pure, so that they are both safe and efficient for the alleviation and cure of all diseases. Added to these means a comprehensive knowledge of medical science obtained by an extensive practice on the part of the physicians in attendance, need furnish no wonder to the public that so many doubtful and dangerous diseases are permanently cured, when as a last resort, the patient visits the Institute. Consumption is treated upon an entirely new and very successful system.

The Institute is open to the poor on Mondays and Fridays, from 9 a.m. till 1 p.m. All letters of consultation addressed to the Principal, all others addressed to the Managing Director. Consultation free.
M. F. McTAGGART, M. D., Principal.
J. J. HALL, M. D., Chief Surgeon.
C. G. EAST, M. D., Consulting Physician.
C. B. SLATER, Esq., Managing Director.
