WILL HAND SUBSIDIES TO THE PROVINCES

The Minister of Agriculture to Arrange Grants Under Agricultural Aid Act.

Ottawa, April 8.—Hon. Martin Burrell, who left for the west tonight to attend the banquet to Premier Roblin at Winnipeg, will upon his return to Ottawa arrange for the transfer of the half million subsidy appropriated for distribution among the provinces under the agricultural aid act. The money to be spent this year will be handed over to the provincial governments after the passing of the necessary legislation by the local legislatures. The money, so far as this year is concerned, will be given to the provinces with few restrictions as to the details of expenditure, but plans for applying the money will necessarily be submitted to the Minister of Agriculture here for approval.

Mr. C. C. James, who is to draw up the plan under which the federal subsidy for agricultural aid is to be applied after this year, is now in Toronto, where he is taking the preliminary steps before leaving next month for a tour of the several provinces.

TROUBLOUS TIMES FOR THE MOSLEM LADIES

Barbaric Punishment for Such as Attempt to Absorb Western Ways.

London, April 9.—The Daily Chronicle's Constantinople correspondent sends an extraordinary account of the way in which the wave of reaction in Turkey is affecting the women.

After the revolution the Turkish women are encouraged to make some attempt to emancipate themselves from the degrading chains of the harem, but now all their aspirations, which inspired them to direct their energies to complete enfranchisement from orthodox habits and the usages of tradition, are being thwarted at every turn. The correspondent says:

"Fathers incarcerate and frequently brutally ill-treat their daughters for appearing unveiled at an open window of the harem. Husbands divorce wives who dare to expatiate on topics of the equality of woman with man. Not seldom an Effendi gives a thorough thrashing to his spouse for merely mentioning that the Koran never enjoins that women should be veiled. Brothers denounce to the police authorities their beautiful sisters who venture to enter an European shop without being accompanied by eunuchs. Any word, any slight deviation of dress which is tinged even in the slightest degree by European influence, is rigorously condemned as opposed to the strict morals of Moslem religious law. Such deviations, by whomsoever committed, are relentlessly punished, the punishment often being of a most barbaric nature.

"The Sheik-ul-Islam, the religious head of the Ottoman Moslems, has stepped in with his own restrictions and prohibitions, which are even more absurd than the enactments of the civil and military authorities. He directs his chief attention to dress. Complete degeneration, he says, is beginning to possess the Moslem fair sex, and the pernicious influence of the west is paving the way to destruction."

NEW YORK'S FIRE RECORD

Losses to U. S. Metropolis Last Year Totalled 12½ Millions.

[Canadian Press.]

New York, April 8.—The annual report of the New York fire commissioners, sent to the mayor today, shows that the year's fire loss in the greater city was $12,475,000. In 1910 the loss was $8,500,000. The average loss last year was $850 a fire. The total number of fires was about $14,000, a falling off of 500 from the previous year. Carelessness with matches was responsible for 1,400 fires, and lighted cigars or cigarettes are blamed for 1,000 more.

The "motorization" of the department is proceeding rapidly. There are now 43 motor vehicles of all kinds, and before the end of the year there will be 150 pieces of motor apparatus in service.

BAD AXE TRIAL POSTPONED

Several Weeks Yet Before the Sparling Trial Will Open.

Bad Axe, Mich., April 8.—The Macgregor trial was adjourned today till next Wednesday to permit the drawing of another jury panel.

This afternoon 25 of the talesmen were excused for cause. The cause was that the jury had been illegally drawn.

There are only three men left in the jury box, and twelve talesmen. Twenty new talesmen will be drawn tomorrow. This will make thirty-five jurors to begin with on Wednesday. Lawyers say the jury cannot be secured out of this number. The third panel is likely to be drawn within a week. It is now probable that it will take two weeks to secure a jury to begin the Macgregor trial.

MUCH RELIEF IN RHEUMATISM

IN ONE BOX OF GIN PILLS

Thousands of people have tested Gin Pills in thousands of cases of Painful or Suppressed Urine, Backache, Aching Legs, Rheumatism and Lumbago. Here is a case of one cure—out of thousands.

NEWBURGH, ONT.

"My father had been troubled with Rheumatism for a number of years. He tried two doctors but got no relief when a friend advised him to try Gin Pills. He purchased a box and after taking Gin Pills for a week found that they were giving him much relief. He then bought three more boxes, which were the means of curing him. He is now a strong man—in good health—and able to attend to his daily work."

ALEX. MOORE.

If you suffer, get Gin Pills, and be free of pain this winter. 50c a box, 6 for $2 50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Dept. G, Toronto.

TALKING OVER PROBLEMS OF THE LIBRARIANS

The Ontario Library Association Opens Annual Gathering at Toronto.

Toronto, April 9.—There was an air of decided practicability and business-like capacity about the first day's sittings of the Ontario Library Association, which were held yesterday in the Public Library, College street. The various papers read, dealing with the technical problems in connection with the administration of public libraries and the duties of the librarians, were of great interest, and the addresses of the speakers in the subsequent discussion were commendably brief and to the point.

Mr. L. J. Burpee, F. R. G. S., chief librarian Ottawa, presided, and there was a large attendance of representatives from the public library institutes of Ontario. The president selected as the topic of his address "As Others See Us," and gave an excellent historical and comprehensive survey of the opinions expressed by English and American writers in the past on the history of Canada. It was a relief, he said, to turn from the cold malignity of earlier travellers to the cheerful words of Mrs. Moodie, who had written that there was a fresh, growing, healthy vitality about Toronto which cannot fail to impress a stranger very forcibly the first time he enters it.

Papers of Interest.

The series of interesting papers read during the afternoon meeting comprised the "Classification of Some Recent Books," by Miss Edna Poole, public library, Toronto; "Classification of Public Documents, Pamphlets and Miscellaneous Matter," by Miss Annie T. O'Meara, London, Ont.; "Fines and Charges for Overdue, Damaged and Lost Books," by Miss J. S. Reid, Chatham; "Subject Headings for Card Catalogue," by Miss H. Young, University of Toronto, and "Expansion of Dewey Decimal System for Canada," by Miss W. G. Barnstead, public library, Toronto. Where each paper displayed an excellent summary and argument of the respective subject it is difficult to particularize, but the closing sentence of Miss O'Meara's admirable essay is well worth recording.

"Government publications," said the essayist, "do not change materially, but one does remark that those who now come to seek information as to civil service lists, new appointments and tenders for supplies are not those who were wont to frequent these shelves under the former regime. Perhaps the recent election can account for this. With apologies to Tennyson, verily:

"'The old order changeth,
Yielding place to new;
And Parliamentarians
Fulfill themselves in many ways.'"

Mr. W. R. Nursey, inspector of public libraries, Toronto, followed with an exhaustive and practical paper on "Our Library Situation."

Earlier in the day the annual reports of the association were presented by Mr. E. A. Hardy (secretary), Toronto, and Mr G. H. Locke (treasurer), Toronto, while other reports received by the meeting were from the respective committees on Quarterly List of Books, Public Documents, Library Institutes, Check List of Canadian Periodicals, Technical Education and the Public Library, A. L. A. Meeting at Ottawa and the Legal Committee.

The appointment of members to the committees was as follows: Nomination committee—Mr. J. H. Gavan, Windsor; Mr. D. M. Grant, Sarnia; Mr. W. F. Moore, Dundas; Mr. W. J. Robinson, St. Catharines, and Mr. A. R. Walker, Belleville. Resolutions committee—Mr. A. W. Cameron, Woodstock; Mr. E. S. Caswell, Toronto; Mr. N. C. Gurd, Sarnia; Mr. W. J. Sykes, Ottawa, and Mr. T. C. Tice, Picton.

MONTREAL BANQUET FOR THE LIBERAL LEADERS

Sir Wilfrid Laurier Expected To Make Important Pronouncement.

Montreal, April 9.—On May 29 Sir Wilfrid Laurier and the four Liberal Premiers of Novo Scotia, Quebec, Saskatchewan and Alberta will be tendered a banquet at the Windsor Hotel. Arrangements have been made to accommodate over five hundred guests, and the occasion will be made one of the most notable gatherings in the history of the Liberal party in this province. Sir Wilfrid is expected to make an important pronouncement in regard to the future policy of the party. The gathering will undoubtedly be a notable one, as the meeting of Sir Wilfrid and the four Liberal Premiers will be significant of forthcoming events.

The Liberal party in Montreal are far from being downcast over the recent defeat. The various clubs have been holding meetings regularly all winter, and the members are full of fight and enthusiasm. The meeting with Sir Wilfrid and the Liberal Premiers on May 29 will put still more life into the fight which the Liberals have been waging.

TRISEL DISAPPEARS

Winnipeg Real Estate Operator Under Fire By Financial Papers.

[Canadian Press.]

Winnipeg, Man., April 8.—Trisel, the real estate operator, who has been under fire by many financial journals recently, being charged with fake schemes, and alleged to have been implicated in several cases in Canada, has disappeared. He appeared here last fall, and opened an elaborate office. He took a residence on Rosslyn road, and started in the real estate business. A week ago he left, saying he was going to Toronto to begin a suit against the Toronto Saturday Night for $50,000 damages for libel.

His residence is closed, and at his office his manager says he does not know where he is. He is alleged to have left many unpaid debts. The manager of his agency today began an action to recover reimbursement for services rendered.

QUEBEC ELECTIONS.

Quebec, April 8.—It is announced semi-officially that the general provincial election will take place by the end of May, probably on the 21st.

ANTI-FOREIGN RIOTS.

London, April 8.—Anti-foreign riots have broken out in the Province of Shen-Si, where many Mohammedans have been massacred, according to a news agency dispatch from Tien Tsin received here this morning.

MRS. J. F. MORREY IS DEAD AT INGERSOLL

Resided There Continuously for the Past Seventy-Three Years.

[Special to The Advertiser.]

Ingersoll, April 9.—One of Ingersoll's oldest and most respected residents, in the person of Mrs. Morrey, wife of Mr. J. F. Morrey, died yesterday. She came to Ingersoll 73 years ago, and had resided here continuously ever since. She was aged 77 years, and besides her husband, is survived by two sons, Messrs. W. H. and E. B. Morrey, both of Ingersoll. Mrs. Morrey possessed many estimable qualities, and while her death was not unexpected, as she had been an invalid for some time, it has occasioned deep regret among many friends. The funeral, which will be private, will take place to the Ingersoll Rural Cemetery on Thursday.

The town hall was the scene of much gayety last evening, when a highly successful assembly was held under the auspices of the Balmoral Club. There was a large attendance, all of whom tripped the light fantastic toe to the sweet music discoursed by the Tony Cortese Orchestra of London.

Rev. Alfred Bright officiated at a quiet wedding at the manse, when he united in marriage Miss Jane Bella Ross and John Watson Murray, both of East Nissouri. They will reside in East Nissouri.

Much faithful work is being gone through with regularly by the Boy Scouts in preparing their programme for the concert and display to be given in the town hall next week. The Scouts are brimful of enthusiasm, and, ably coached by Commissioner Gibson, they are making every second count. Provincial Commissioner Hammond, of Toronto, will be present at the concert, which it is confidently expected will be the best the boys in khaki have ever attempted.

Mrs. Joseph McKinnon, of Collingwood, is visiting relatives and friends here.

Mr. and Mrs. W. G. Dutton, of Aylmer, spent Sunday with relatives here.

THIRTY-YEAR FRANCHISE FOR RADIAL LINES

Syndicate Secures Right To Build Throughout Manitoba.

[Canadian Press.]

Winnipeg, Man., April 8.—Joseph Choate, jun., returned to New York today, having secured a thirty-year franchise for United States and Canadian capitalists building radial railways throughout Manitoba. The same syndicate will also take over the $25,000,000 street railway property of Mackenzie & Mann in Winnipeg. This is Choate's warmest fight in history, and the syndicate got a good deal, but not all it sought.

WORK ON C. N. R.

Vancouver, B. C., April 8.—From 1,000 to 1,200 sectionmen will resume work along the line of the Canadian Northern Railway during the early part of this week, according to reports which have arrived from Yale.

LITERARY NOTES

The Quest of the Poles.

From "The Right Angle" in April Canada Monthly: The century is not yet twelve years old, but it has brought wondrous things. No principal point or part of the earth's surface remains now unvisited or unknown. The quest for the poles has come to an end, after almost three hundred years of terrific strain, and the loss of many, many lives. Two years ago England's thousand years of isolation were ended by Bleriot's flight across the Channel. A year earlier Zeppelin had carried passengers through the air, across the Alps. Three years before that the Wright Brothers made sustained mechanical flights. Still earlier Sir Oliver Lodge had found means to utilize the Herzian waves. Marconi followed with his coherer, and intelligence began to pulse over long distances by electric agitation, without wires. An uprush of minor invention that, in other days, would have been astounding, has accompanied these great things, so fast and yet so quietly that the people have scarce made note, though they affect the conditions of life at their very base. If the man of a hundred years ago could wake up for an hour, what he would see would send him hustling back to his grave, appalled and shaken. We are only in the beginning of a new order, even at that. It is probable that if any of us now living could similarly wake for a moment a hundred years hence, we could not pull the sod up over us again half quickly enough.

Technical World.

Two strong features for April Technical World: "When Welsh and Irish Rule," by Robert Barr, and "Two Hundred Cities in Revolt," by Henry M. Hyde. The first covers the English political situation; the second, commission government in America.

St. Nicholas.

The April St. Nicholas has two fine stories of adventure—very different, but with a brave lad the hero of each. One if Ford Walsh's "The Return of Okakok," the story of an exiled Eskimo lad's hard journey home. The other is Frank B. Elser's "Wireless Peter," in which a plucky lad, fascinated by the magic of wireless telegraphy, wins out in spite of many discouragements.

Woman's Home Companion.

Kathleen Norris, who became famous as the author of "Mother," begins a new serial novel in the April Woman's Home Companion. It is a love story laid in California. Other fiction is contributed by Mary Stewart Cutting, Carlyn Wells, Mary E. Wilkins Freeman and Mary Hastings Bradley.

Among articles of note in the April Companion are the following: An autobiographical chapter by Howard Pyle, the great American artist; an account full of personal details of the life of Germany's present Crown Princess Cecilie, who is 25 years old and the mother of four children; "Making the Most of Moving Pictures," an account of the moving picture business as an educational factor; "Getting Rid of the House Fly;" "Good Health a Business Asset," in which the author gives much practical advice, particularly to women who work in business for a living; and an Easter talk by the pastor of the Broadway Tabernacle in New York City.

Smart Set Items.

The Smart Set Magazine has added a new feature to its make-up, a department entitled "Pertinent and Impertinent," by Owen Hatteras, which will discuss in a breezy, satiric way each month items of general interest. This month the author of this department puts forth a plea for a revision of the code of punishment for crimes, maintaining that the old scheme of hamstringing runaway servants and amputating pickpockets' fingers, while a bit severe, was yet working along the right lines.

A Study of Jealousy.

"Jealousy" is the title of an absorbing short story by Ethelwyn Wetherald in the April Canadian Magazine. In a recent number of the same magazine this author, who lives at Chantler, Ont., had a poem entitled "Prodigal Yet," which was recognized as one of the best poems of the month in America and republished by the Literary Digest, Current Literature, the literary supplement of the New York Times, and many other publications. Miss Wetherald's story will be found to be much above the ordinary. In the same number are contributions from W. Lacey Amy, Newton MacTavish, Arthur Stringer, Virna Sheard, Frank L. Packard, C. Lintern Sibley, Junis Steinmetz and Charles S. Blue, all Canadian writers.

Those concave mirrors which one finds in the "Houses of Mystery" in summer amusement parks, play an important part in a new story by James Oliver Curwood entitled "The Laugh Maker," in the Red Book Magazine for April. In the store a banker who has absconded with the funds of his depositors, grows so thin that even the woman who loves him cannot recognize him. One day, when they were visiting a summer park, he stops in front of a concave mirror, and the reflection shows him as he was in the day when he was fat. From this big scene on the story moves with swiftness.

The April Rod and Gun.

Once more Rod and Gun in Canada is out with a special spring fishing number—the April issue—and as usual there is something to interest fishermen in tvery province of the Dominion. The Rest Easy Fishing Club's Canadian Outing on the French River is the opening number, and, believe us, it is a good one, illustrating the fine sport indulged in by a party of American sportsmen who answered the call of the wild in Algonquin Park.

Distrust Precocity.

"Parents should specially distrust precocity in their children," says Rheta Childe Dorr in an article on "The Child That Is Different" in the April Century, "and they should, instead of encouraging phenomenal musical talent or mathematical ability, find means to check the child's tendencies. Precocity is no sign of superior mentality. It is an indication of disease."

Schaff Encyclopaedia.

In the preface to Volume XII. of the new Schaff-Herzog Encyclopaedia of Religious Knowledge, which has just made its appearance from the presses of the Funk & Wagnalls Company, the editor-in-chief, Dr. Samuel Macauley Jackson, tells us that eight and a half years have elapsed since this work was begun.

Some idea of the magnitude of the undertaking may be inferred from the fact that over 800 of the foremost scholars here and abroad have been engaged upon it; that 8,791 main topics and 12,229 subsidiary tonics have been created; that 6,342 pages of text are contained in the twelve volumes; that the financial expenditure has been over $300,000.

Among the famous persons whose biographies are included in this volume are: Tyndale, Wycliff, Zwingli, Voltaire, Wolsey, and Charles, and John Wesley.

Such a religious encyclopaedia prosecuted with unremitting toil and painstaking care through eight and a half years, would seem to render unnecessary the publication of another for a long time to come. It now holds the field.

Canadian Home Journal.

Canadian Home Journal (Toronto) for April has several interesting subjects discussed, such as the "Sikhs Immigration Question," and others. Fiction is well represented, also the Fashion Department. The Journal is a credit to Canada and deserves well of our citizens who believe in giving preference to our own publications.

Scribner.

From time to time there is a positive announcement that a branch of the Grand Trunk Pacific will extend from the middlewest of Canada to James Bay, at the foot of Hudson Bay, and there a great sea-port will be built which would convey the grain from Western Canada directly to Liverpool. George T. Marsh describes the country through which this railway is likely to run in an article in the April Scribner, entitled "The Albany Trail to James Bay." He made the journey of thirteen hundred miles by canoe.

Suffered Greatly With Her Heart.

Became So Weak At Times Could Hardly Walk.

Many people may be unaware of having anything wrong with their heart till some excitement, overwork, or confinement in an overheated or overcrowded room, or public building makes them feel faint and dizzy.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, you should not wait until you case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. D. McGilvery, Bathurst, N.B., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my heart and became so weak at times I could hardly walk. A friend of mine advised me to try your Pills, which I did, and soon found great relief. They are the best medicine I have ever taken for heart trouble."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Muscles Useless Without Nerve Force

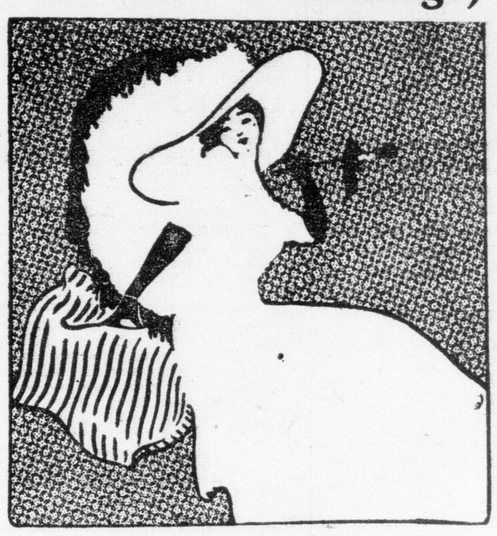
Perhaps you are not quite clear on the relation of the nerves to the rest of the body. Through the nerve fibres which extend through countless branches to every nook and corner of the human system is conveyed the motive power which operates the various organs.

There could be no breathing, no beating of the heart, no flow of the digestive fluids, no action of any muscle or organ of the body without nerve force. Consequently, when the nervous system becomes exhausted there is complete collapse of the body, the different stages of which are described as nervous prostration, locomotor ataxia and paralysis.

The time to use such restorative treatment as Dr. Chase's Nerve Food is when the headaches, sleeplessness, indigestion and other warning symptoms first appear. A few weeks' persistent treatment is then sufficient to revitalize the wasted nerve cells and restore health and vigor.

Important Sale of Embroideries Tomorrow

Dress Pieces, 9 to 11 Inch Bandings and 27 Inch Flouncings, About Half Price



THE COMING SUMMER WILL BE A SEASON OF WHITE.
See Window Display.

Here is your best opportunity of the season. A clearance of 39 dress lengths—140 yards 8 to 11 inch Bandings, and a quantity of 27-inch Flouncings, all at about half regular price.
