Life and Character Reading.

JUNE 27.

The governing sign of this birthdate is Cancer, the sign of the Crab, and the governing planet is the Moon, which accounts for many of the eccentricities of people of this birthdate. The birthstone is a black onyx and the astral color russet brown

These people have not given themselves the work of self development, and they are apt to talk of themselves. It is very hard for them to work under the direction of others, and correspondingly difficult for them to live harmoniously in a house that they are not the head of.

The most congenial companions for persons born under Cancer will be found with those born under Pisces or Scorpio. The offspring of this union will be the strongest when Pisces and Cancer persons unit. JUNE 27.

This date is favorable to the buy-ing and selling and exchanging of musical instruments. Use the Want Ads for this purpose, and you will get the best of a good bargain.
