China Letters.
HENRY WOOTTON,
Postmaster.
Victoria, V. I., May 30th, 1864.
CALIFORNIA ITEMS.
SACRAMENTO MERCHANTS COMING TO SAN FRANCISCO - Many of the heaviest merchants of Sacramento are removing their places of business to San Francisco. Within the past month the largest drug house and the principal wholesale confectioner from that city have opened business here. The reasons for the change are that taxes are somewhat lighter in San Francisco than in Sacramento, and the former place is looked upon as possessing fully as great commercial advantages as the latter.
STRAUCK BY LIGHTNING - The Golden Gate Hotel, at Onion Valley, was struck by lightning on the 15th, slightly injuring several persons, one of whom, Miss Mary Eaton, had one of her limbs paralyzed for several hours by the shock.
LEWY AND McDONALD, the actors in the late shooting scrape in San Francisco, have been tried before Judge Shepherd and convicted as follows: D. S. Levy, fine of \$100 or 30 days imprisonment; Robert McDougal, fine of \$15 or imprisonment for 7 days.
JULIA Dean Hayes and Harry Courtaine are still playing with success in the Metropolitan.
MR. W. W. Wiggins has resigned the office of Notary Public, which he has held for many years in San Francisco.
THERMOMETER in Sacramento 98 in the shade on Monday.
NEW CHEMICAL AGENT IN WARREN - Chloride of nitrogen is said to be used as an implement of war. Its employment would seem likely to put an end to all war. Mr. Isham Baggs, an English chemist, in announcing his discovery, proposes to carry up his composition in balloons, and drop it from the air in the midst of armies and fortresses. "The very mention of this compound," he goes on to say, "as a proposed element in modern warfare, may possibly provoke a smile among chemists, who know that the most accomplished among their number would scarcely dare to experiment with it in quantities larger than a grain of mustard seed, and even then at a respectful distance, and under guard at the moment of its detonation. And yet not one of those chemists will be bold enough to deny that with two or three chemically clean cartridges of this terrible compound present in one instant, decide the fate of the place and its inhabitants." Mr. Baggs then proceeds to affirm that he has discovered a method of overcoming the contingent difficulties and that he is able to manufacture this deadly material with perfect safety, and in any required quantity, and that it can be safely conveyed to its destination.
THE AUTHOR OF CONINGSBY - In an article on the pecuniary whirlwind which Mr. Disraeli has received, the Philadelphia Press says: "Coming back to Mr. Disraeli, we can state that his family certainly emigrated from Spain to Venice more than a century ago, and that the family name was Lara. Its head at that time was a wealthy merchant, who, like Shylock, had vast dealings on the Rialto. In Venice, at that time, there was a greater tolerance of religious opinion than in any other part of southern Europe. No one ever heard of an auto da fe in Venice. Lara finally removed to London, where he formed to that faith soon after quitting Spain, but proud of his ancient lineage, assumed the name of Disraeli (literally a son of Israel) to perpetuate the fact of his Hebrew descent. The son of this gentleman was the late Isaac Disraeli, well known as a man of letters, and the present representative of the family is the Right Hon. Benjamin Disraeli, ex Chancellor of the Exchequer - the same to whom Mrs. Brydges Willyams has bequeathed the bulk of her fortune.

THE VOL. 5.

THE BRITISH COLONIST
PUBLISHED EVERY MORNING
(Sunday Excepted) AT VICTORIA, V. I.
