TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health-Their own Statements Follow.

Haliburton, P.E.I. :- "I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars.

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound." — Mrs. GEO. COLLICUTT, Haliburton, Lot 7, P.E.I.

Hardest Thing First.

There is never so easy a time to do a hard thing as the first opportunity we get for its doing. Every postponement then only makes the task harder. It may seem stupendously hard when we first face it; but if that is the time we ought to do it, it will never be so easy again. Efficient workers have learned, therefore, always to put their hardest tasks ahead of their easier ones, when they can take their choice. The early

morning, immediately upon entering the day's work, is a good time to plunge into the hardest things that await us. After that it is a simple matter to pass on to the easier tasks. and get them done. But how often we take the invitingly easier ones first, and find by night time that the day has frittered away on them, while the hardest one is left over to be done "to-morrow," as it has been for so many days in the past! Rising up early in the morning seemed to be a favorite practise among the Bible men of strength when they had hard work on hand. We may be sure they did not rise up early in order to do the thing late that afternoon. With most of us, hardest things first, or hardest things not at all, must become the habit of our life.

NOTE AND COMMENT.

Happiness is a perfume that cannot be shed over another without a few drops falling on one's self.

The poorest girls in the world are those not taught to work. There are thousands of them. Rich parents have petted them, and they have been taught to despise labor and depend upon others for a him and he will be surprised to living, and are perfectly helpless. The most forlorn women belong to this class. It is the duty of parents to protect their daughters from this deplorable condition.

Men are too apt to leave their prayers to priests and nuns, women and children, Bishop M. F. Fallon told his audience at Our Lady of the Rosary church, in Detroit, Monday night. Prayer should not be the mere lip service but the breath of life in the nostrils of the Christian. and nuns, to the 'professional prayerists,' and to their women and children the saying of prayers. An Aid to Success. In an article specially addressed to

young men with a view to encouraging them in habits of economy, the Rev. Dr. C. H. Parkhurst, the wellknown preacher and social reformer of New York, writes :-

"Although five cents a day rescued from one's spendings is not much it may in the final issue make all the difference there is between being buried in the potter's field and own-

ing a comfortable house on a main avenue.

"If a young fellow begins by putting aside five cents a day the ambition to accumulate will grow upon discover presently how many places there are where he can cut off some unnecessary and perhaps foolish little expenditure that yields him only a momentary gratification and one, it may be, that is more to his harm

than his advantage. And the moral effect of the economic habit is that it tends to bolster up a fellow's desire to lead a straight, clean, temperate life.

The man who is ambitious to see his pile grow will be restrained by that ambition from loose indulgences "Too many men leave to priests that shrink the pocket-book in the same proportion that they pander to the body.

"Even a small bank account or a single small share of stock is a sort not be expected to pray. But God ing up in the midst of the allurements of a spendthirft society."
