who frequently meet a tall, slender form? Why not beautify her face, lady, with raven black eyes, and hair, hair, her hands and feet? spheres. How, at the age of sixteen but the 'Kusma' is dry and I will wipe the poem, now so widely known, is thus narrated, as furnished by her personally for this publication: "The little hairs around the mouth and chin were gone, leaving the akin as sonally for this publication: "The amount as that of a newborn behalf."

poem was suggested to me by the reading of a story, 'Love and loyalty,' in April, 1867. I was then a plain country school-girl, not yet seventeen, residing with my parents at Litchfield, bad wakened in the morning. Bathe siding with my parents at Litchfield, bad wakened in the morning. Bathe your eyes and your mouth, but don't ing out mathematical problems with my arithmetic before me, I wrote the poem roughly on my slate. I was forced to carry on my literary work under these difficulties because of the control of the liquid and slowly applied it to the face giving it a pale delicate tint.

See how much softer your face looks!

Here she produced a pure white liquid and slowly applied it to the face giving it a pale delicate tint.

Parlor Suits range in price from This is Eugenie's secret of beauty:

dreams and useless rhymes. I wrote the first copy on my slate between 4 and 6 o'clock in the afternoon, but much time has since been spent in correcting and revising it. The poem was first published in the Detroit Commercial Advertiser in the fall of 1870. The editor upon the receipt of my manuscript, at once wrote me a lengthy letter of congratulation and praise, in which he predicted the popularity for the verses which they have since received. The poem at once attracted popular attention, and bestowed upon its young author a reputation which each succeeding year has enlarged. Although it has been translated into French, German, and other languages, the poem has never brought its author presental recognition as its too. the first copy on my slate between 4 globe.'

How to Kill Moths and Disease.—I have never, during my 20 years of bousekeeping, had a moth of any description, and attribute my immunity entirely to the use of turpentine. After each of my carpets is well swept, it is at once gone over with the following mixture: To three quarts of pure cold water add three tablespoonfuls of turpentine. In this thoroughly saturate a sponge, squeeze about twosthirds dry and go over each breadth separately and in all the corners. As often as the water becomes soiled take a fresh supply. You will be surprised to see how beautifully it will cleanse your carpets, besides being one of the best disinfectants. My father, an eminent physician, had this always practised in his family, and we were never troubled with fevers any more than moths,—
