

Moody's Labor Saving Farm Machinery

POTATO

For digging out potatoes when planted in drills. This is not a new fangled idea which may not be successful. We have been selling them for many years and they are giving the purchasers first class satisfaction. See our local agent.

DIGGER

A six knife pulper and slicer. Iron hopper and cover over knives. First class in every respect.

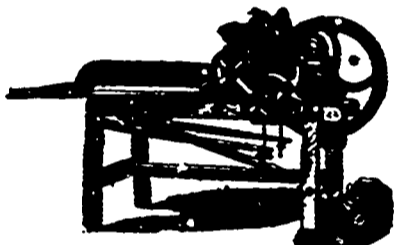

ROOT CUTTER

CORN SHELLER

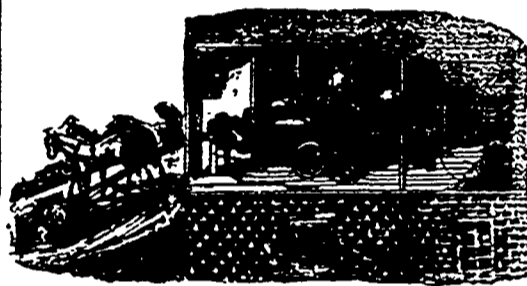

It is adjustable to suit the largest as well as the smallest cobs and will do perfect work. The grain goes into the box and the cobs and the dust go out off the end of the machine. Take notice to the blower.

FEED CUTTER

Has knives with level on either side. Has a drop feed table. Has safety fly-wheel. Has steel cutting plate and enclosed gear swivel carriers. We make this machine in five sizes. We believe we have the best machine for this work and would earnestly request intending purchasers to give it a close inspection.

STEEL HAY PRESS

It is a full circle press—takes 17 x 22 in. and as long as you wish. The plunger enters twice to each complete revolution of the rollers, and the chain is always loose when the horses pass over it. Weighs 35.0 lbs. Can supply winter bales when desired. One customer states that he pressed last winter with this machine 7 tons hay in 4 hours. This machine has been worked in a barn floor which was 10 feet above outside ground and the horses were on the level ground outside—and did the work with great satisfaction.

TESTIMONIAL FROM A WELL KNOWN OWNER OF HORSES IN MONTREAL. Kimball's Horse Exchange, Montreal, July 13, 1897.

J. H. KIMBALL, Horse Exporter and Dealer, Proprietor Horse Exchange—English Veterinary Embrocation Co., Ltd.

GENTLEMEN,—It is with pleasure that I recommend to all horsemen the use of your English Veterinary Embrocation. I have, as you are aware, been a large purchaser of it for the past year, and do not buy less than one dozen at a time. For sore Throats, accompanied by Inflammation, it gives most satisfactory results. For Capped Hocks, Bruised Knees, and Strained Sore Tendons, it has no equal. I always supply it to men going in charge of horses to Europe from my stables, and when once used they always ask for it. Yours truly, J. H. KIMBALL.

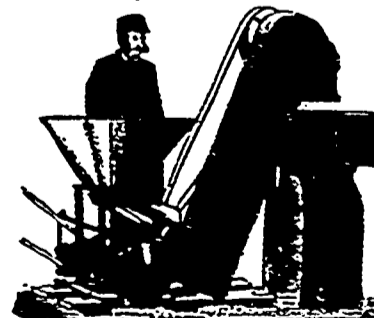

For sale by all Druggists and Dealers in Harness.—Retail price, Large Bottles, 50c.—Prepared only by the

ENGLISH VETERINARY EMBROCATION COMPANY,
P. O. BOX 516, MONTREAL.
