A Vision of the Ages;

LECTURES ON THE APOCALYPSE.

A Complete View of the Book of Revelation.

By D. W. JOHNSON.

When I began the study of Revelation no thought of the present work had entered my mind. The splendor of the imagery and the sublimity of its descriptions had always attracted me, but I have read as one who walks through an unknown and mysterious country. Like many others, I believed that the book could not be understood, and was ready to pronounce the man a visionary who sought to interpret John's visions. Several years have passed since I entered seriously upon the study of the book. I was led to do so by the revelation that the Word of the Lord was not composed of enigmas and dark sayings which no man could understand; that it was all written "for doctrine, for reproof, for correction, for instruction in righteousness," and hence must be written in such a way that it could be understood; that a special blessing was pronounced upon those who hear and keep the words of the prophecy, which would certainly never have been done if it was impossible for men to fathom its meaning; lastly, that a great part of the prophetic portion must have been fulfilled before this last quarter of the nineteenth century, and therefore be explained by the corresponding events of history. In my studies I ever kept in mind that the book is a series of symbolical pictures, a panorama of great events until the end of time, and by a careful comparison of the pictures, in their order, with history, beginning at the date of John's exile to Patmos, I have been enabled to evolve what is to me a satisfactory view of the whole scope of Revelation. EXTRACT FROM PNEUMAS.

This work has been received with great favor as the best exposition of this wonderful prophetic book. 300 pages, 12mo, cloth. Price, \$1.25. Address,

TO RUPTURED PERSONS

Testimonial from a well-known Citizen.

To J. Y. Head, Truss Manufacturer, Etc., 255 Queen Street West, Toronto, Ontario.

DECEMBER 31st, 1890. DEAR SIR, - My case was a severe one. Every effort of others only increased the trouble. They failed to hold me in every instance. They either did not understand my case or lacked the requisite skill. My impression is - all other trusses, at least those which I tried, are designed on false principles. You divided the difficulty at once, your first effort being crowned with success. It is now about four months since you adjusted your appliance and during all that time not the slightest appearance of trouble; previous to this I had not known one day's comfort for years. I can now safely attend to my business while wearing your grand appliance, in fact it is so easy and comfortable I am not physically conscious of wearing it - such a contrast to all others which were simply tortures without any redeeming qualities. The interest you evinced, the attention you have given, and your success in my case compels me to give you permission to publish these few lines as a slight acknowledgment of your skill, and as an encouragement to other sufferers to consult you and be relieved. Very truly, A. L. H. GIBB, Prop., Etc., Carlton Hotel, Yonge St., Toronto, Ont.
