Commission of General Assembly of of the mine; but taking her up on the Church of Scotland.

This Court met on the 8th of this month (August), the Moderator of Assembly in the chair. The business before it was a resolution on the Confession of Faith. It will be seen by readers of last month's Record that there was a discussion on this subject before the Assembly in June , the one that is least likely to be shaken down. which resulted in a resolution to the effect that | England has been destroyed every ten or "Church judicatories be directed and enjoined to see that all persons who shall have signed the Confession shall not directly or indirectly depart | present day, in the prophecies of men. This motion was generally sub- thrown by sea; she has been about to be witted to but since the mostion of Assault. mitted to, but, since the meeting of Assembly, plughed up by land; she has been about to counter-expressions, and from some leaders be stripped of her resources in India, and within the Church, having arisen, it was now other parts of the globe. Nations have moved, seconded, and agreed to, that whereas the General Assembly, at its meeting of 30th May, pronounced the following deliverance:—

"Whereas it is essential to the peace and unity of the Church that her relation to the Confession of Faith as her doctrinal standard shall be loyally and consistently maintained; and whereas the doctrine and government of the Church, as set forth in the aforesaid Confession, have been discredited by the expressed opinions of persons of influence in the Church;—the General Assembly direct and enjoin all the judicatories of the Church to see that all persons who shall have signed the aforesaid Confession shall not directly or indirectly depart therefrom, but shall loyally and consistently adhere thereto. And whereas it has been reported that the expressions of opinion thus condemned and pro-hibited by the General Assembly have been resumed since its rising, the Commission instruct the Agent for the Church to send a certified extract of last General Assembly to the Clerks of the several Presbyteries of the Church, to be communicated to the first meeting of the said Presbyteries.

It may be added that the passing of two motions upon conformity to the Standards this year. proves the importance the Church attaches to the subject, and her fear lest her members and ministers depart from the faith, and the body be no longer united, sound, and faithful. Hold fast, then, the form of sound words; and meddle not with those given to change. A. W. H.

England-the sources of her Strength.

—I know how many things are mischievous of nor having any ecclesiatical connexion among her common people, among her with the said Synod of Australia And operatives of the factory, among her seris whereas there is a Congregation of Presby-

one side, and down on the other, there is not another nation that represents so much Chaistianity as Old England. If you do not like to hear it, I like to say it; and the strongest power on the face of the globe to-day is that kingdom. It is the strongest kingdom, and fifteen years fron the time of Armada to the other parts of the globe. Nations have formed alliances against her, the armies and fleets of the civilized world have gone about her; her interests, political and pecuniary, have been repeatedly and violently assailed. and yet she has stood as she now stands, mistress of the seas, and the strongest power on earth, because she has represented the moral element."
