### CURRENT TRADE CONDITIONS.

ONTARIO.

Some important transactions in the lumber business have taken place within the past week. The cut of the Gilmour & Hughson mills at Hull has been purchased by an American company, after considerable competition between United States and British buyers. The Hull Lumber Company and W. C. Edwards & Company are also said to have disposed of their coming season's productions to a British firm, but this statement lacks confirmation. It is known, however, that negotiations to that end are in progress. In the Georgian Bay district the sale of an entire mill cut is announced to have been made, and large contracts have been given to mill owners for the sawing of logs. As the spring approaches a strong disposition is shown by buyers to contract for stock, as it is very improbable that prices of lumber will be lower than at present at least before midsummer. Prices of common and cull pine lumber have been gradually gaining in strength, until it has been considered advisable to advance our quotations on this class of stock about one dollar per thousand. Common, 1x10 and 12 inch, sells in Toronto at wholesale at \$15 to \$16, and mill culls at \$12 to \$13. Inch siding common brings \$14 to \$15, ship culls \$13 to \$14, and siding mill culls \$11 to \$12. No change has taken place in hardwood quotations, although, in view of unfavorable logging conditions, the market is decidedly firm. Wherever dry lumber can be found it is being purchased for the local and United States trade.

### QUEBEC AND NEW BRUNSWICK.

Logging operations in the eastern provinces are progressing favorably, and it is now believed that an average supply of logs will be obtained. Almost everything pertaining to the lumbering business is advancing in price, so that there is little reason to expect a decline in the quotations of lumber. Spruce logs are selling for delivery at the Miramichi booms at \$1.50 per thousand above the price one
