

done, both by the "pay" and "free" institutions. Mr. Baines remembered the work for the needy in a bequest of \$300 to the Free Hospital. A bequest of \$61 has come from the executors of the late Ann Robinson, of Dundalk. Interest in the practical work undertaken at Weston is shown in receipt of a cheque for \$250 from the Massey-Harris Co., being endowment of a bed for one year, and a cheque for \$500 from the Confederation Life Association, renewing their yearly endowment of two beds at the Muskoka Free Hospital.

MEDICAL PREPARATIONS, ETC.

THE INTERNATIONAL HYGIENE EXHIBITION.

GRAND PRIX AWARDED TO MANUFACTURERS OF SANATOGEN AND FORMAMINT.

The worth of a "grand prix" depends chiefly upon the character of the exhibition which awards it. In the case of the International Hygiene Exhibition at Dresden—under the patronage of His Majesty the King of Saxony—the honour is a genuine one and represents the highest medical opinion in Europe. It is interesting to note, therefore, that the only Grand Prix awarded in the pharmaceutical section at this exhibition has been received, against numerous competitors, by Messrs. A. Wulffing & Co., manufacturers of the well-known preparations, Sanatogen, Formamint and Albulactin.

The British section, under the patronage of H.R.H. Princess Christian, was organized by the Lord Mayor of London, Sir Vesey Strong, and played a prominent part at the exhibition, where all the leading nations were officially represented.

LITERATURE WORTH READING.

The value of heat as a therapeutic agent has been so conclusively proven that it will admit of no further argument.

The difference, however, between convective heat in contra-distinction to radiant heat is a subject in which the profession generally is interested.
