ed to me by a thousand recollections of sorrow and of joy, and where my hope is-if it please Godafter an obscure, but not wholly useless life, to sleet beside my own dead, in the quiet church-yard

which contains their ashes.
"My chief anxiety now is, that my motives in declining the Episcopate of Indiana, may not be misurderstood. I am not conscious of the influence of any, but those which I have expressed. The convictions which I have uttered, however, are deep and settled.

" Nothing therefore remains but to thank your Convention, as I do most heartily, for the honour they have done me-yourselves, brethren, for the kind manner in which you have announced their choice to me-to assure you of the lively interest which I shall not cease to feel in your young but hopeful Diocese, and of my deep regret that I should have been, however involuntarily, the cause of a moment's embarrassment to you, and to pray that God may speedily send you a Bishop equal at once to the just expectations of the Diocese, and the great demands of the Episcopate.

"Your friend and brother, "S. BOWMAN.

"The Rev. Messrs. Chowns, KILLIKELLY, and HARRISON - Committee, &c.

Acutal Mission .- The undersigned begs to acknowledge the receipt of five shillings from "A Steward" for the above fund.

C. H. GATES.

Quebec, 1 Sep. 1817. The acknowledgment under the above head in our last number ought to have been 6s, 4d, (six shiflings and four-pence) instead of 9s. 4d. as it was printed by mistake. - Eurron Bergan,]

PAYMENT RECEIVED .- Dr. Daniel Drake, No. 179 to 230.

To Connespondents .- Received Pamphlet from R ;-J. P. B, just this morning.

Entered to the second of the second s Nocal and Political Anteiligence.

We are indebted to the Morning Chronicle for the following recent news from Europe, which reached Montreal by Telegraph on Tuesday:

"The Steamship Quadalquiver, Hosken, arrived at New York yesterday, bringing ten days later news from Europe. Another decline has taken place in every description of breadstude-the guntations for Flour in Liverpool 25s. a 26s., in London 27s. a 28s., at the latter figure no transactions of note had taken place.

"The Money Market was extremely tight; the greatest difficulty was experienced in discounting the best papers -money was worth 5; a 6; prem. "Failures to the extent of one million three

hundred thousand pounds sterling had occurred amongst corn dealers. " Cotton was a shade lower.

"The Crops had been nearly all housed in safety. The supply of Foreign breadstuffs continued to flow "No political news of importance is mentioned.

"I have no local news of importance to communicate to-day. " Six o'clock, r. M.

"I have just been favoured with a copy of the following slip, published at the Herold Office:-

"Intelligence was vesterday received in town of the arrival, at New York, on Sunday last, of the Guadalquiver steam ship, with dates from Livetper to the 14th ultimo, she having sailed from that peron Sunday, the 15th alt.

"We find a short summary of the news (receive by Telegraph) on the book at the Merchants is change. Room. A further decline had taken place in the price of breadstuils. Flour, in London, 27% a 28s., in Liverpool, 25s. a 26s. per barrel. Corn, 26s. a 30s. per quarter. Some large failures are said to have occurred, and money is reported to

be greatly in demand, -51 a 64 per cent, being the rate of discount." THE RELIEF System .-- By a circular of the Re-

ford supplied from the government depots, the Commissary General will order the direct issue of prodepots, in lieu of so much money as may be required. The supply is to be temporary, merely to clear off the stores that have been collected at the solicitation of the respective Committees to meet the demand for provisions. The object of the government in thus reducing their stores at the depots is for the purpose of leaving the trade of the country to take its ordinary course. An order has been issued from the Board of Works to discontinue all persons acting under the inspectors, from the 10th inst. [ulto.] No claims are to be allowed for works after the 3rd. Thus will the whole enormous machinery of the last ten months be reduced to its original elements. It is stated that in one of the counties of Connaught £40,000 of the relief money had been unaccounted for.

THE ARMY .- The head-quarter company (recently arrived from India) and depot of the 9th Foot, will occupy. Winchester barracks on the 16th and 17th inst., as will the 62nd Foot, shortly expected home from the same place. The 17th and 39th regiments, now on their passage from India, will be stationed, the former at Canterbury and the latter at Deal .- The 2nd battalion of 60th Rifles have errived from Winchester at Gosport, replacing the 2nd Queen's Royal Regt., which left for Athlone in Ireland, on Monday and two following days.

The Southern Reporter states that the authorities have directed a certain number of all regiments of infantry to be drilled to artillery practice, so as to be able, in case of emergency, to serve guns of heavy calibre. Parties of two regiments in Cork garrison are now learning drill under the superintendance of artillery non-commissioned officers. The guns used are 32-pounders.

Colonel F. Campbell, who commanded the Royal Artillery the last nine years in Canada and recently returned to Woolwich, has been appointed Director of the Royal Military Repository at Woolwich, and Inspector of Drills, vice Colonel Rudyerd, R. A., deceased.

The FRENCH STEAMER MISSOURI, from Cher. bourg for New York, was found so unaccountably short of coals, during her passage, that she had to put into Halifax on the 16th ulto, for coals; and the hinil-agent came on, with her mails, in the Cunnid Steamer Cambria, to Boston.

Mexico .- The previous account of the occupation has proved premature, and the last accounts from the invading force describe Gen. Scott as having intended to move forward from Puebla on the 7th ulto. | the prevalence of disease in the city, which cannot !

Married P -- In Kingston, N. H., MARTHA Windstow, aged 19, to Col. WM. WEBSTER, aged 67. By the above union, the bridegroom has married his sister's grand daughter, which makes the bride a wife to her great uncle, sister to her grandfather and grand-mother, aunt to her father and mother, and great nunt to her brothers and sisters. She is step-mother to five children, fourteen grand children and one great grand child.

We learn from the Brockville Recorder that the whole of the Stock for the building of the Suspenion Bridge across the Niagara River, and near the Falls, has been taken up. The amount appropriated plete this great undertaking.

From the same paper we learn that the office of the Telegraph Station at Brockville was opened on the 25th, and communications were held with Montreal, Kingston, Hamilton, &c.—Chronicle.

FIRE AT KINGSTOY .- A fire broke out about four o'clock yesterday (25th ult.) afternoon in Wellington street which raged for a short time with most destructive effect. The fire is said to have originated in pastry-cook shop near the corner of Princess and Wellington Streets, and acquired sufficient body before the alarm was given to defy all attempts to repress it. It spread with terrible tapidity among the adjoining buildings, which were of wood, and some of the oldest structures in Kingston; within an hour some twelve or liften shops and dwellings, with an immense array of outbuildings, formed one e iss of flame, and between twenty and thirty famihas were deprived of dwellings. By vast and un remitted excitions on the part of the fire companies and the military, the flames were fortunately prevented from extending across Wellington Street. and were likewise confined on the eastern side of the block. We do not know the names of all the Ferers by the fire, but they include Messrs. George, Wilkinson, Aylmer, White, Spankie, Guiland, and a number of others .-- News.

MONTREAL EMICRANT HOSPITAL - Number of sick last Menday, 119\$. Deaths during the last 24 hours, twenty.

On the 21th instant, His Excellency the Governor-General, accompanied by Lord Alexander Russell and Major Campbell, Private Secretary, visite and inspected a passenger-carriage, built by John Thornton of Montreal, upon Prosser's principle, intended to run upon a wooden road (at the Chats Postage, Ottawa River) just completed by Messis. John Egan, of Aylmer, and Messrs, Aumond & Wright. His Excellency expressed himself much pleased with this first trial of so cheap an introduction of railway travelling, as being eminently well adapted for this country, as well as with the superior workmanship of the carriage itself .- Montreal Herald.

The Hop. H. H. Killaly, who has been superintending the operations of the South Echo Copper Company, and of the Canada Mining Company, arrived in town on Thursday from take Huron, ringing with him several barrels of ore from the different locations of these companies. Specimens may be seen at the effices of Andrew Snaw, Esq., President of the South Echo Copper Company, and David Torrance, Esq., President of the Canada Company, also at that of Messis. Macdoughl and Glass, and we believe at the News Roon .- Pilot.

Beauty or HEALTH. - We have great pleasure in copying, from the Channele of last Thursday, the foilersing report adopted by the Board at its meeting

on We need wot last week :appropriated to consider and report on the several resoathere of the Council presed at their last session, as ingrediction to the establishment of a fover Hosde , the to the Bard that having attentively troughter to Belians and other documents es-troughter Regulact Health, tiny are of opinion that the married mace, darn and superintendence of bever the puter forms no not on of their selfimposed daties; which consist solety in the execution of the smatrye massives possed from time to time by the Council, in the form of By-Laws; and to offer to the Council and others such suggestions as may appear calculated to in prove the state of the public health. Under these cir umstances, the Sublief Commissioners, it appears that, instead of Committee count but feel thankful that the Council Mr. Murphy, Stevedore, 2 ho money payments by the Finance Committees for has relieved the Board from an ardnous and difficult perty, in one of which he lived. office, and has seen the propriety of itself establishattention, and will involve perhaps an expenditure

but little anticipated at the present moment. "The Sub-Committee regret to notice the marked the Council's resolution; a feeling strictly in accordance with their every act since the establish ment of the Board of Health; but the pressing necessity for immediate and combined action is too urgent to risk any retardment of the Council's operations by an ill-timed expression of feeling, they recommend therefore that every personal consideration be stiffed, and they believe it to be the Board's duty to remain at its post, to be of further service, should an occasion present itself.

"In the meantime, it will be the duty of the Board, in anticipation of delays arising out of this sudden change made by the Council, and which cannot but he foreseen, to reiterate again and again the necessity for prompt and energetic measures or their part and that of the Health Committee, - to keep the Conneil aware of any cases of anytavated suffering which may arise from the want of a Fever Hospital, and in a word, by every means in the power of the Board, to drive them into the measure.

"The Sub-Committee in conclusion, beg at once to express it as their opinion, that should the operations of the Council be retarded for any considerable period, the loss of other lives will be added to the already lengthened catalogue; and they are persuaded that every day's delay will only render more apparent the necessity for an institution which the Board from its very formation has not ceased to urge on all parties, as the best, the safest and most efficacious means of preventing the increase of fever

" The whole humbly submitted.

"W. S. SEWELL, "G. HENDERSON, "Jos. LEGARE."

It may be needful to point out the difference beween the Board of Health, and the Health Commirries. The former are a body distinct from the Corporation, but established for the purposes set forth in the above report, which are calculated to render them an important auxiliary to the Corporation. The HEALTH COMMUTER are a Sub-Committee composed of members of the Corporation, consequently bone of their bone and flesh of their flesh and if confidence cannot be reposed, by our City Council, in the Board of Health, at all events the of the city of Mexico by the United States' Army Health Committee, who are breathing the very breath of the Council, may be trusted.

The Board of Health have collected fresh facts of

A competence relationship.—The Kingston fail to spread, if means are not found for separating News gives the following under its usual head of those attacked with contagious disease from the healthy part of the community. If we knew how to set about it, we should be really happy in aiding the laudable, though tiresome endeavours of the Board in devising means " to drive" as they express it, the Council into the establishment of a Fever Hospital.

QUARANTINE STATION, GROSSE ISLE. - Statement,

from the Morning Chronicle, to the 21st ulto: Number of deaths on the passage, Do. on board ships after their arrival at quarantine and previous to being put on shore 1245

Number of deaths at the Hospital and tents 2503

7150 Making a total of. From the conmencement of the season to the List instant, 26,195 cases of sickness had been admitted in the Hospital and Tents at the Station. Number

of sick on Saturday last, 1994. THE ADJUTANT GENERAL OF MILITIA.-The vacancy in this office seems not yet to be filled up; it is supposed that Lieut. Colonel Taché will be appointed to it, and that thus the situation of Deputy Adjutant General for Canada East, now held by that officer, will become vacant. Among the candidates for the office, Lieut. Col. Irvine is prominently mentioned, and his claims are, we believe correctly, set forth in the following terms by a city-contemporary:

" Mr. Irvine is a Canadian by birth, is perfectly arquainted with the French language, and it will be in the remembrance of most of our tenders, com-manded a tenument raised by general service in the years 1837, 1838 and 1839. When this corps was dishanded in the month of May, 1840, Lieut. Col. livine and the Queen's Volunteers were highly complimented, in General Olders, by Lieut. Gen. Sir James McDonell, for their conduct, discipline and ethelency. Col. hrive's father was, we believe, for many years an influential man, at of the Exeentire Council of Lower Canada; in addition to this candidate's claims, on the mound of efficient reisonal and family services to the province, he is held in high esteem by his follow colonists greerally, and his appointment would, we are persuaded, meet with the cordial approbation not only of the English but the French portion of the community."

The Literacian transport left our harbour on Sunday last, in to v of H. M. Steam Sleep Hermes, having on board the fight wing of the 81st Regiment,

who embarked on Saturday.
[The Herman, Commander Bridges, arrived in the Port of Quebec on Vinesday of last week, bringing specie to the Commissuint, Lieut, Harvey, A.D.C. to his father. Bir John Haivey, Liant. Governor of

Nova Scotic, came passenger in her.]

The Montreal papers state that Mr. Rubidge and Mr. Buitlange, of the Board of Works, have orders to examine the entrance of the Captouge river to ascertain its fitness for dacks for large ships and lumber, and also to ascertain the propriety of a caust from Lorette to Caronge river prayed for in the potition of Mr. Scott. They are also to make a further examination of the proposed improvements at the mouth of the river St. Charles and at the Palace landing.—Gazette. The steamer Lord Sydenham after having under-

gone a thorough repair and receiving a considerable improvement is again about to take her place in the line between Montreal and this port. Capt. Richardson, well known as a steamboat Comman-der, in Upper Canada, is to take charge of her. -- Chronicle.

Fine .- Last night, about 8 o'clock, a fire broke out in Champlain Street, in a boarding-house kept by Mrs. Ramsay, opposite to O'Brien's wharf. Defore the fire companies could reach the spot, the flunes had communicated to the houses on both sides of the street, which is very narrow in that locality and notwithstanding the most active exertions. 7 of S houses were destroyed before the progress of the fire could be arrested. The following are the names of the parties who were burned out, as far as we have been enabled to ascertain :-

Mrs. Ramsay's Boarding House, owned by Mr O'Brien, Mr. Kennedy, Shoemaker, residence do. Mr. O'Brien's own residence, a large stone house A wooden dwelling, situated on the wharf, also nis property (inhabited by sundry persons).

Mr. Murphy, Stevedore, 2 houses, his own pro-

The residence of Mr. Bean, Grocermissary General will order the direct issue of pro- lieg a Fever Haspital; an institution, the manage- We believe that nothing was saved from the house visions to Relief Committees in districts near the meant of which will require much care and continued where the fire originated. Among the principal sufferers we learn are Messrs. W. O'Brien and Michael Murphy, the former of whom is said to have lost five houses. It is said there was no want of confidence exhibited towards the Board, in insurance on any of the property destroyed. The vessels lying at O'Brien's wharf were, at one time, in great danger, and preparations were made for unmooring them, which were afterwards found to be

unnecessary. - Chronicle of Monday.

An alarm of Fire was given last evening. The fire broke out in a house in St. Julien Street, St. Louis Suburbs, and was extinguished without much damage. Phosphoric matches, placed in a cupboard, are supposed to have ignited. - Mercury of Тиездау.
