We have, after examining a large number of different maker's globes, decided to use the maps of two makers in covering our globes. One the renowned Keith-Johnston maps, the other, though not of such a world wide reputation, yet considered by many as fully equal for all purposes, known as the Cheney Globe cover.

On the Cheney maps the parts representing water are white, those parts representing the land are in bright colours, thus showing the outlines, names and boundaries distinctly. The print is clear and full, and corrected to 1891.

The Johnston covers are printed for us by W. & A. K. Johnston, Edinburgh, Scotland. These covers are entirely new, exhibiting the most recent geographical discoveries and political changes. The Isothermal Lines for January and July, also the Ocean Currents are clearly shown.

The globes covered with the Cheney maps are generally preferred for school use, as the boundaries are more distinct, while those covered with Johnston maps are preferred for reference globes in offices and homes.

With the exception of the 18 inch globes the prices given are for globes with Cheney maps. For globes with Johnston covers add \$1.50 for 12 inch globes, \$1 for 8 inch and 50c, for 6 inch globes, to the prices given.
