

SCHEDULE III  
(S.9)

Information Respecting Chlorofluorocarbon  
that Must be Retained

Information Respecting Manufacture

- 1.1 Dated records of the quantity of each chlorofluorocarbon manufactured at each manufacturing facility.
- 1.2 Dated records of the quantity of chlorofluorocarbon used as feedstocks in the manufacture of other substances.
- 1.3 Dated records of the shipments of each chlorofluorocarbon manufactured at each manufacturing facility.
- 1.4 Dated records of the quantity of chlorofluorocarbon recovered at each manufacturing facility, and the names and addresses of the source of recycled or recoverable materials containing chlorofluorocarbon which are recovered.

Information Respecting Import

- 2.1 Dated records of
  - (i) the quantity of each chlorofluorocarbon imported in bulk, either alone or in mixtures;
  - (ii) the port of entry through which the chlorofluorocarbon passed;
  - (iii) the country from which the chlorofluorocarbon was imported;
  - (iv) the commodity code for the chlorofluorocarbon imported; and
  - (v) the importer number for the shipment.
- 2.2 Copies of the bill of lading, the invoice and the Canada Customs documentation for each import of chlorofluorocarbon in bulk, either alone or in mixtures.

Information Respecting Export

3. Dated records of
  - (i) the quantity of each chlorofluorocarbon exported in bulk, either alone or in mixtures;
  - (ii) the port through which the chlorofluorocarbon was exported from Canada;
