# 100 Cavalry Horses and 50 Artillery Horses

From Petawawa Camp

On WEDNESDAY, JULY 9th

These horses were specially bought for the purposes of the Government for the annual training of these military camps. They were purchased at prices as high as \$400 per head, and from that figure to \$400 per head.

They are a very fine lot of horses through and through, every single one having gone through a severe examination by the Government Veterinary Inspectors, and no defective horse having been purchased. They are, therefore, the best of horses. They were well cared for at camp, and are in good shape after a trying month's work.

The majority of them are 5 to 7 years old, and sound. The gunners weigh 1350 to 1550 lbs., and are grand general purpose or draught horses. The cavalry horses are a very fine lot, that will make the best of wagon and delivery horses or drivers. When purchased, these horses were bought with the view of being resold for general working purposes, and buyers will get a splendid lot of thoroughly good horses at their own bids. Remember, every single horse will be sold, and the opportunity is far too good to lose.

C. A. BURNS, Proprietor of The Repository. ISAAC WATSON, Auctioneer.
