(Continued From Page 1.) ative of this government.

Mr. Lina, it was asserted tonight, had been instructed from Washington to continue to act at his own discretion as to whether he should await developments at Vera Cruz or to return to Mexico City. "Up to a late hour no despatches had been received at the state department from Mr. Lind. Secretary Bryan said before leaving for an over-night trip in Pennsylvania that he believed that the envoy would remain the Very City."

temain in Vera Cruz tonight.

Air. Bryan conferred with President
Wilson over the reply of Senor Gamboa minister of loreign affairs, to Mr. Mexico Backing Down.
The fact that the Mexico City of ficials in their second note of reply had receded from the demand for an

exchange of accredited amoassadyrs, it was pointed out, left an opening for future moves. The view was expressed that the Bamooa reply to the second American note might actuate Mr. Lind to address a third note to the officials of the Huerta government. Acting at his own discretion, it was suggested that the American representative might forward a message to Mexico City from Vera Cruz before determining upon going to the Mexican capital in person for a renewal of direct negatiations. direct negotiations.

: SUMMER

Extract from "Canadian Seasons, etc."

Luxuriant Summer pours her coins of corn From Nature's mint in Plenty's brimming horn; The sun, the soil, the rain, the vital air, Combine their magic in this climate rare, To show Perfection in her ripened form On Model Farms, so broad, so rich and warm, As we possess in Canada's domain. Where Farmer-Kings and Queenly women reign.

Our latitude and isothermal line Both correspond with the historic Rhine, With Spain, or France, and famous Asia Minor, Not Persia or Cashmere have summers finer. The best thermometer is what we grow In this pen-slandered land of ice and snow, What country on the globe such honors bear For quality of apple, peach or pear?

Our vineyards here wre running red with wine, Of flavor and aroma most divine. We only need the skill and industry To match fair France in vintage mystery; The markets of the world proclaim the grade Of grain which Nature's northern forces made, Let foreigners attend our fairs and see The cream and essence of good husbandr. Let them condemn our products if they ca And learn that Canada's best crop is MAN!
