Whole Day For Allotting Stations, Followed by Examination of Ministerial Character.

Rev. J. D. Months and the specific struck, desires to go into evangelistic work, but will probably have to do without the approval of the conferwithout the conferwithout

On Thursday morning an open con-ference will be held, at which both laymen and clergy will discuss matters of general importance in connection with church work, and the meet-

will give an account of their conver-sion, and their reasons for entering the ministry, after which addresses will be given by Rev. Dr. Hazelwood

Bishop Vincent, who comes to To-ronto from the United States to form-ally open the new parsonage presented to the Metropolitan Church by Chester Massey, will on Saturday relieve the monotony of the routine conference work by giving an address, entitled "A Unique Church Club."

The remainder, of the conference, which closes on Tuesday, June 18, will will the conference by the conference of the conference.

be taken up with unfinished business. The president of the conference is Rev. Dr. Burns of Brampton. It is expected that either Rev. J. C. Speer of Rev. Dr. Cleaver will succeed him.

THIRTEEN COWS KILLED.

Curious Personalities of Inventors. From The Engineering Magazine. Of course, outside of the independent and salaried professional inventors is the great army of men who, while actively engaged in occupations embracing every line of human endeavor, develop new ideas, often of great value, and just as often altogether out of their line of regular work. An enquiry into the personalities of a few dozen inventors, to whom pat-ents have been granted during the

last year, shows some remarkable facts. Among them, a sea captain has patented a steering gear for automobiles, while a carriage builder has invented a ship's capstan.

A blacksmith has papers for a fishing réel; a shoemaker for a type-writer; a physician for a door lock, and an undertaker for a hoisting der-

rick, and many others show just as strange deviation from their regular walks of life. W. B. Northrup, M.P., to Wed. OTTAWA, June 9.—William B. Nor-thrup, M. P. for East Hastings, of

Belleville, Ont., is shortly to be mar-ried to Mrs. Clemow, daughter-in-law of the late Senator Clemow.

In the Summer Home.

Prairie Grass Furniture . Is new and pleasing, tough, and durable, and is particularly saited for porches, as it is not affected easily by changes in climate. Enameled wood beds of white or colored wood are trimmed with panels of cretonne, or of cane. Lace curtains in drawing and sleeping rooms are giving place to madras curtains. These curtains are shown dras curtains. These curtains are shown in conventional designs, crossing horizontally or in lengthwise loops and vines. Portieres, to be up to date, must be of heavy gray linen, with print color designs, which either closely cover them or merely decorate them at wide interwals. Porch rugs can be had in bright Japanese effects or of prairie grass with horders of two or more colgrass, with borders of two or more col-

The New Styles. Closed at Back.

Paris Pattern No. 1926.
Ally Seams Allowed.
This pretty jumper, closed at the back, is made of the fashionable wich as Morris, high-backed, and grandfather chairs; small, straight-backed chairs, and easy back. Bedsteads are yoke portion which widens out into three tabs each one held down with small buttons. It is a good model to be made in white or black slik of any sort, or in pongee of the natural color.
The pattern is in six sizes—32 to 42 irches, bust measure. For 36 bust, the jumper needs 4 yards of goods 20 inches wide, or 2 yards 42 inches wide.

Part Pattern No. 1926.
Ally Seams Allowed.
This pretty jumper, closed at the back, is made of the fashionable chairs, and easy back. Bedsteads are made with cane panels. Settees are made with high backs of woven Chineses scroll work, and even tables are produced from rattan and bamboo.

Some of these are upholstered; others are not. Movable cushions of tapestry are used as upholstering. Ecru matting cloth has many advantages—it wears for almost incredible lengths of time, its colors contrast well with the mountings of red, green and with the mountings of red, green and brown. It is fitted especially for the brown. It is fitted especially for the summer-house on account of its cool-
