

## NOTICE OF THE BOUNDARY

Canadian Pacific Rushing—Construction and Mines Being Rapidly Worked.

## HOLD ON TO DARDANELLES.

That is the Advice of Mr. Murray—Reasons Why—Mining Exchange.

From all accounts the C.P.R. when it taps the Boundary section of British Columbia early the coming summer will find lots of business awaiting it. In fact, indications are that the big railway company will be forced to hustle in order to handle all the work that will be offered. The C.P.R. is under way for the erection of several smelters in the Boundary Creek valley, the C.P.R. smelter at Boundary is said to be ready under way, and the Granby Mining and Smelting Company will soon begin work on a similar plant. A syndicate is also after the water power at Boundary Falls with a view of erecting reduction works in connection therewith.

Development of the mines is going on in all directions, and as progress is made the size of the mineral deposits is found to be surprising to all comers. Take the Mother Lode for instance. Mr. John, the superintendent of that property, says that in less than a year his mine will be shipping more than the War Eagle, Centre Star and Le Roi mines put together. If the managers of these three mines do not believe this, he offers to pay their expenses to come over and see for themselves. The Mother Lode is owned by the British Columbia Copper Company, in which Eastern Americans are interested. The size of the mine is fixed at 10, and there are now quoted at \$11 in London, the proper centre of America. Basing the value of the mine on the market price of the shares, the "Mother Lode" is now considered worth two million dollars.

On the "B.C." mine, which is controlled in Montreal, 17 miners are at work, and the shaft is down 200 feet, and a new hoisting and steam power plant have been ordered. The mine is being worked by the Boundary section of the C.P.R. A thirty-drift compressor has also been ordered, and when this is in place the mine will be equipped with a plant sufficient to carry development down to the thousand-foot level.

Mr. W. L. Hoag of Montreal is in control of the development at the Sunset Mine in Deadwood Camp, where a good force of men are employed. Work on the King Solomon, Old Ironsides, Knob Hill, Steam Winder, Brookline, Winnipeg, Golden Town, is being vigorously pushed, and work has been recently commenced on the Main mineral claim. Up the Boundary, the Kettle mine is going on night and day, in the shape of development on the main shaft. The Kettle mine is being worked by the Boundary section of the C.P.R. The Kettle mine is being worked by the Boundary section of the C.P.R. The Kettle mine is being worked by the Boundary section of the C.P.R.

The Columbia River announces that the contract has been let for the construction of a bridge across the Kettle River near Columbia town. The bridge is to be a steel truss bridge, 74 feet high, with three spans of 100 feet, 100 feet and 100 feet. The bridge is to be built by the Columbia River Bridge Company, and the contract was let to the Columbia River Bridge Company.

It is announced that an electric lighting plant has been secured for Columbia. The plant is to be built by the Columbia River Bridge Company, and the contract was let to the Columbia River Bridge Company.

It appears that a large portion of the company's ore is of concentrating character and that the increase of capital is designed to provide for the development of the mine. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R.

It is not yet the present decline in price of stock, that it would be an excellent time for you to have been able to save money by buying at the present price. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R.

It is not yet the present decline in price of stock, that it would be an excellent time for you to have been able to save money by buying at the present price. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R. The mine is being worked by the Boundary section of the C.P.R.

Don't use an imitation—especially imitations of Pearl-line. Many are dangerous. And dangerous washing powders can never be cheap—no matter how little you pay for them. Peddlers and untrustworthy grocers will tell you the stuff they offer as "Pearline," "same as," "as good as," "made in the same factory," etc. It's false. Pearl-line is the standard washing compound; never peddled; gives no prizes; simply stands on its merits as the best, safest, and most economical.

THE WIARTON

CAMP MCKINNEY B.C.

The WIARTON is located between the properties of the famous Cariboo Company, and the Cariboo, which is fast developing into a phenomenal property. The Cariboo ledge passes through the entire length of the Wiarton and into the Waterloo ground. The property consists of about 45 acres, is Crown granted, and is owned by the Wiarton Development Company, a British Columbia corporation, with a capital of 60,000 shares of \$1.00 each. The treasury stock consists of 200,000 shares, which will be treated as a reserve. The owners of the property take 200,000 shares, and out of the proceeds \$10,000 in cash will be placed in the treasury of the company and spent upon the property before any of the treasury stock is sold.

The Cariboo Company has a capital of 1,250,000 shares, and is selling at 13 cents per share. The WIARTON has 60,000 shares, and a limited number are now offered at 25 cents per share, in three payments of 7 1/2, 7 1/2 and 7 1/2 cents, subject to advance without notice.

A competent mining engineer will proceed to Camp McKinney at once to start active development work on the property.

Make all applications for shares to

WRITE

Coulthard & Co.

for a pocket map of Camp McKinney, together with a prospectus of Ecuador McKinney, the best buy in the camp for the money; only 6 cents per share. The prospectus will be ready this week, when we will forward both map and prospectus to all applicants.

Telephone 8293. Members Toronto Mining Exchange. 70 Bay Street.

B. C. AND REPUBLIC.

I INVITE THE READER "Ymir Notes" and "Republic Mining Camp."

This is a little effort of mine recently issued to the public, which deals somewhat with Republic and her mines. I am promised some interesting details with regard to the great Republic mine, which I shall issue to the readers in due course.

NORTH KAN POIL has struck it rich. REINDER and JUMBO are making good headway with their tunneling, and I ask the investor to CLOSELY WATCH the developments on these three properties. Already there has been an advance in the price of REINDER shares and another is pending.

Ymir stocks are good, and I like MONARCH and FAIRMONT among the low-priced ones, while DUNDEE and TAMARAC are ever popular.

12 ADELAIDE ST. E. E. GARTLY PARKER, Mining Broker.

Phone 1242.

RUBY SILVER MINING AND DEVELOPMENT CO.

This property is an extension of the Noble Five group and adjoins the "ANTOINE" to the northwest, the "SUNRISE" on the east and the "HILVIL" on the south. Several shipments have been made to the smelter since the 31st of December. Silver from 202 3/10 oz. to 208 3/10 oz. and lead from 37 per cent to 38 7/10 per cent. These showings are not taken from assays, but direct from the smelter. The property is situated near the town of Ruby, in the Yukon Territory.

Only one limited number of shares for sale.

Member Toronto Mining Exchange.

S. J. SHARP, 80 Yonge St.

GOLD STOCKS—WHAT TO BUY

Send at once for Prospectus of the St. George Mines Dev. Co., which will be ready this week. This company is organized on a plan which must make it a dividend payer, low capital, rich properties; first money raised for development work only.

This stock will go with a rush; only small issue at 25c. Second issue not less than 50c. Ask for prospectus of the Devery-Johns Syndicate; the shares in the syndicate are now closed out. Your opportunity is now if at all. This is a ground-floor proposition to operate a rich property near the famous Sultana mine in Lake of the Woods.

Great Granite Co. stock for sale, near famous Mikado; this is a splendid buy, Golden Star, J.O. 41, Alice and Smuggler. Close prices.

J. CURRY, Manning Arcade.

The Golden Star is a Great Mine.

The rush for this stock has started again. Now is the time to purchase. This is paying about 15%—one per cent. per month. There is nothing in the market to equal it at present price.

SPECIALS

2000 Rathmullen, 500 Pathfinder, 2000 Winnipeg, 1000 Novelty, 1000 Victory-Triumph, 2000 Dardanelles, 2000 Ruby Silver, 2000 Canadian Gold Fields, 2000 Big Three, 2000 White Bear, 2000 Iron Horse, 2000 Fairmont, 2000 Commander, 2000 Victory-Triumph, 2000 500 at 8.
