### C. P. R. POSTPONING TRAIN RESTORATION UNTIL JUNE 16TH

Shortage of Power and Heavy War Rush Responsible.

ANNOUNCED FOR APRIL 28

Canadian Pacific Changes Originally Scheduled for the Same Day as G. T. R.

Owing to the pressing need of locomotives for the hauling of freight, principally war materials, the C. P. R. new timetable changes will not become effective until June 16. It was announced some time ago that the C. P. R. would restore its former passenger service on Sunday, April 28, the date on which the new G. T. R. timetable goes into effect. After consideration, the company officials decided to annul the change announced for Sunday, April 28.

On Sunday, June 16, eight passenger trains on C. P. R. lines west of Toronto Ontario will be restored to service. Two trains on the Ingersoll-Port Burwell line will go on again; the Queer City Limited, leaving here at 9 o'clock in the morning, and five other local trains, including four Sunday ones, which were cancelled some months ago, are listed among those to run after June

The large volume of freight being loved by the C. P. R. at present is axing the motive power facilities of

ow than it has been for some months, according to the reports of several local mnorters when questioned. The Italian emon is the only fruit over which there is question on account of the embargo placed on shipments from Mediterranean ports by the United States Government. Brokers have advised London dealers that while the importation of Italian lemons was forbidden at first, the order has been modified somewhat to allow them to be brought into the country by license. As all Italian lemons reach Canada through United States ports, this will affect the situation here somewhat. It may have a tendency t ncrease the use of lemons grown in the United States. The price will not be United States. The price will not be materially affected, the dealers say.

Oranges and bananas are arriving in London quite freely now. The dealers are having their orders filled promptly. This was not the case up until two weeks ago. There was not more than one carload shipped out of every five ordered until recently. The price of oranges has dropped slightly, but there is no indication that the price will go any lower. The situation as a whole, however, is such that the wholesale however, is such that the wholesale dealers are optimistic for the future.

Germans Ready to Resort to Any Possible Means to Win.

"Forty-six thousand of our Canadian ads are holding up wooden crosses over there in France and Flanders. We cannot break faith with those who have fought our fight and laid down you, in this crisis, nothing else matters but the winning of the war. We who are at home have got to give more than we have been giving to back up our men who are putting their all into the war. If the men at the front are the war. If the men at the front are putting all into the winning of the war, even life itself, why shouldn't we? If you give even half what you are worth, it isn't too much in the face of what others have done and are doing."

The foregoing was a part of the stirring message, the ringing challenge to greater self denial and effort to win the war, delivered by Capt. Best, at a mass meeting in the Y. M. C. A. auditorium on Sunday afternoon, and also conveyed to congregations of the city, in the morning in Talbot Street Buptist Church, and in the evening in St. Andrew's.

PIMPLES ASHAMED TO GO OUT

Many an otherwise beautiful and attractive face is sadly marred by unsighty pimples, blotches, flesh worms and various other blood diseases.

Their presence is a source of embarrassment to those afflicted, as well as pain and regret to their friends.

Many a cheek and brow cast in the mold of beauty have been sadly de-faced, their attractiveness lost and their ossessor rendered unhappy for years. Why, then, consent to rest under this cloud of embarrassment?

There is an effectual remedy for all these defects. It is Burdock Blood Bitters. This

remedy will drive out all the impurities from the blood and leave the complexion nealthy and clear.
