POLICE DISMISSAL. As the result of an investigation by Chief of Police Clark, Policeman S. J. Leighton who has been a member of the St. John police force since last July, was relieved of his duties as a policeman last night. It is alleged that while on duty in Mill street he accepted money from the management of a dance hall there to provide police protection and maintain order. The matter was brought to the attention of the chief who investigated and dismissed the policeman. The matter had nothing whatever to do with the recent investigation by Commissioner McLellan. In speaking to a Times reporter this morning, Chief Clark said that the dismissed policeman had no right whatever to do what he had done. There are now six vacant positions on the force.

SHOT IT FOR A MOOSE. The Spruce Lake Case Explained and Payment Made. Joseph McCarthy of Five Fathom Hole has learned who killed and quartered his steer on Saturday near Spruce Lake, he told of yesterday the Times. The matter will probably go no further. It was found that hunters had gone into the woods and one of the number had shot at the steer mistaking it for a moose. Afraid of the consequences on learning of his error, he had quartered the animal and hidden the head in the underbrush, thinking thus that the killing might not be noticed. Those in the party have made amends to Mr. McCarthy and have paid him a sum sufficient to cover his loss.

MR. BELL HOME FROM WEST. Thomas Bell has returned after a trip through the western provinces, occupying several weeks, during which he visited some of the western real estate investments. He found the prairie provinces in the flush of prosperity, resulting from a big crop with excellent conditions for harvesting it. The rapid growth of the western country during the last few years was a revelation to him and he considers such a trip of the utmost educational value to every Canadian as it was only by a personal visit that anyone can begin to grasp the extent of Canada's national resources. Mr. Bell met a great number of men from St. John and other parts of the east and found most of them doing well. The easterners seemed to play a leading part in the affairs throughout the whole west.

MR. GOLDING AND THE NICKEL THEATRE

Some More News Following on Times' Paragraph—The New Theatre Plans

Considerable speculation is rife concerning theatrical affairs in this city in the light of some recent announcements. The Royal Gazette a few days ago contained a notice of partnership between the Golding brothers, W. H. and J. N. Jr., had taken over the Nickel Theatre interests in Keith street. It is understood that the deal is in the nature of a co-partnership with the American interests at present operating the Nickel, and will in no way affect W. H. Golding's management of the Keith business in this city. Mr. Golding will assume control of the new Imperial Theatre, King Square, upon its completion as well, unless some recent business proposition lure him from the show business. As W. H. Golding already controls the Star Theatre, North End, his connection with the entertainment business is rather extensive in this town.

A few days ago when H. L. Watkins of New York was in St. John he was asked what the policy of the new theatre was to be. While mainly non-committal the Keith superintendent said it was more than probable that the new theatre would occupy the boards of the time, although the exact details of the entertainment programme if business exigencies demanded changes from time to time. Asked if the house would rent to best road attractions Mr. Watkins said that this was not thought of at present, although Keith stock companies of high merit and an affiliation with the Shubert and other big dramatic interests, might bring the best of the best theatrical attractions here if circumstances demanded.

"There is one thing sure," said the Keith man, "we are going to have a handsome and expensive house that is to be made pay some way or another."

The future policy of the Nickel Theatre is not announced. For five years this house has played pictures almost entirely, and with a fair measure of success. Whether it will be continued in the picture business upon the advent of the new house nobody could be made say. It has been rumored that vaudeville or popular priced stock companies would be used there during the fulfillment of the Keith lease, which terminates in 1915, but this could not be substantiated. The prospects of the Keith extending their vaudeville circuit from the new Bangor house to the Imperial on King Square seems to be a remote one, unless complications start a theatrical war a'going.

FIRES AT PARTRIDGE FROM CARRIAGE AND GETS BROKEN ANKLE

On the Fredericton train this morning Charles Duplisse of Gagetown was brought to the city suffering from a broken ankle. Yesterday afternoon near Gaspeaux Station his horse bolted and threw him from his carriage into the roadway and the wheels passed over his foot. He had been driving along the road and had seen a partridge at no great distance. He fired a good shot for his gun and he fired from the carriage. The report startled the horse and the animal bounded forward, upsetting Mr. Duplisse from his seat.

IN THE POLICE COURT

Three prisoners charged with drunkenness, were arraigned in the police court this morning. Two were fined \$8 or two months in jail, and the other was remanded. His Honor, in remanding this prisoner, told him that he would be liable to be sent to jail for six months, as there were several suspended sentences against him. "You have been given a good many chances," said the court, "and I have gone so far as to write to the minister of justice on one or two occasions to have you liberated, but it is no use. You are going to the dogs just like a whole lot of young men are going, and the best thing for you is to get out of town, away from your bad companions, or get a position on a farm where you will be out of harm's way."
