

# THE BIRD AND BELL.

O'er lanes of flaming furze I heard  
A singing, sweet, sweet wild bird;  
But the bright, the empty, the  
The cruel tempter's false decoys,  
Lure larks from their celestial blue,  
And souls of men from rapture-true.  
A fowler caught the silly bird,  
I wept: But then the bell I heard  
Stream silver from a steeple high,  
Which floated prayer fraught to the sky,  
Deepest delight is seldom stir'd,  
Yet, touched by tone of bell or bird,  
It overflows. The bird is given  
By Fate to earth, the bell to heaven,  
Though men are rich in heart and brain,  
One rises high, but falls again;  
The other fills the ringing skies  
With lovely deeds until he dies.

THE PRODUCTION OF COAL OIL IN SCOT-  
LAND.—The abundance and cheapness of  
American petroleum have not seriously de-  
pressed the production of coal oil in Scotland.  
There are in that country 68 oil works, which  
consumed in the year 782,900 tons shale or  
bituminous coal and produce 21,850,000 gal-  
lons of oil for lamps, 5,000 tons of paraffin,  
and 600 tons of sulphate of ammonia. Formerly  
the coal used to yield 120 gallons of  
crude oil to the ton, but the supply of that  
quality is exhausted, and shales are now work-  
ed which yield not more than from fifteen to  
35 gallons per ton.

Josh Billings says:—When hope dies in a  
man he is as dark inside as an old tin lantern,  
where kandel is gone out.  
There is lots of people who die old age,  
and laint got nothing else show that they  
have ever lived.

There is only one way to tell the truth;  
but there is upward of 75 ways to tell the  
same lie.

## Why the Valve Jar is Superior to all Others for Preserv- ing Fruit.

1. Because it is the only one in which the con-  
tents can be securely fastened, and cooked while  
thus fastened, without risk of an explosion.  
2. It is the only one that is automatically sealed,  
therefore, the only seal-dealing Jar in the  
market.  
3. It is so simple that no skill is required to use  
it successfully.  
4. It is securely fastened when placed in the  
kettle, and being immersed, the fragrance of the  
contents is confined in the Jar, a more perfect  
vacuum produced and the handling of the hot jars  
entirely avoided.  
5. It is well known that fruit jars which are  
closed with tight fastenings burst by fermentation,  
and the effect upon the content and surrounding  
well understood by many housekeepers.  
The Cover of the Valve Jar being a perfect safety  
valve makes an explosion impossible, and en-  
tirely obviates every difficulty that exists in other  
fastenings. For sale by
